The ACCA Qualification

More than ever, our fast-changing, increasingly digital world needs forward-thinking finance professionals: people who can innovate and lead positive change wherever they work; who work to the highest professional and ethical standards, and; who see a bigger and better picture.

If this sounds like the kind of professional you want to become, then ACCA is for you.

Choose to study with us and you're choosing a future packed with opportunity. We are the world's largest accountancy body – with more than:

**200,000 members
and 500,000 students**

in 176 countries

For more than 115 years, we've been helping ambitious, talented people like you to build exciting and rewarding careers, all over the world.

The **career** that takes you where you want to go

All industries need forward-thinking finance professionals. So, whether you're targeting a role in the film industry or pharmaceuticals, fast cars or fast food, premium brands or the premier league, a finance and accountancy qualification will help you get there – and help you make an impact when you do.

Where better to study than with the world's most forward-thinking accountancy body? Employers seek out our professionals because they know that people with ACCA after their names will think strategically, act with integrity and add value to their organisations from day one.

“ The ACCA Qualification gave me the foundation I needed to really excel in the workplace. Since I became ACCA qualified my life has never been the same. It’s an organisation that is thinking and shaping and leading the profession, and that’s something I feel really proud to be a part of. **”**

Babajide Ibironke FCCA, CFO, Mantrac Nigeria Limited

“ When I took up ACCA, I thought I was just going to be an accountant, a finance manager or a management accountant. After a couple of years in the industry and having observed the opportunities available, I realised that accountants with the right skills can do a lot more. It’s just a matter of being a bit bolder, open-minded and having the right qualification. **”**

Jeffrey Chew FCCA, Group CEO & Director, Paramount Corporation Bhd

The business qualification for a **fast-changing** world

The role of the finance professional is constantly changing. Here at ACCA we are constantly adapting our qualification, staying relevant to today and anticipating the challenges for the professionals of tomorrow. We regularly research the evolving needs of employers to make sure we continue to produce accountants with the knowledge and skillset to stay at the forefront of the profession – and in demand all over the world.

With the ACCA qualification, you can...

■ Choose your career path

If you're looking for an international career, you've come to the right place. The ACCA Qualification is recognised all over the world. It's flexible too – giving you a broad base as well as opportunities to specialise. So, you can pursue a career you're passionate about, almost anywhere.

■ Stand out to top employers

When you become an ACCA member, you'll have a skillset that organisations everywhere are looking for, now and in the future. Why? Because we shape our qualification around the needs of employers and the evolving challenges they face.

■ Make an impact

ACCA gives you the skills to add value in any environment. The ACCA Qualification requires practical experience as well as technical learning, so by the time you qualify you'll already have at least three years' hands-on experience and know how to leverage your skills to make a difference.

“ ACCA students and members will be well-armed to face the needs and challenges of the modern business world. ”

Shuhua Yang, *Finance Director, MSC Software Corporation*

■ **Become a leader**

You'll develop the skills and behaviours to lead people, drive decision-making and implement change. You'll learn how to get the best out of new technologies and you'll have access to the latest insights and a global network of forward-thinking professionals to help you keep your organisation ahead of the curve.

■ **Prepare for the future**

Our world is changing rapidly and organisations need finance professionals who can help them adapt, harness new technologies and look beyond what's possible now. Studying with ACCA, you'll address the big themes in business and finance and how to get the most from them. You'll develop the ability to work across geographies. And you'll act to the highest professional and ethical standards. Whatever the future brings, you'll be ready.

What does the ACCA Qualification cover?

Through a powerful combination of exams, ethics and experience, you'll develop the strategic skillset, technical ability and professional mindset to add immediate value to any organisation – and take your career to new heights.

“ Whichever career path you take, ACCA gives that solid foundation of financial expertise, integrity and ethics that is required for a fulfilling and rewarding career. ACCA has given me the confidence to expand my professional experience in any industry, country and across a number of diverse roles. **”**

Dato' Merina Abu Tahir FCCA, Chief Internal Auditor, Malaysia Airlines Bhd

■ Applied Knowledge

Gain a broad understanding of essential accounting techniques such as effective business operations, management accounting and financial accounting.

■ Applied Skills

Develop the strong, practical skills that are part of the strategic finance professional's toolkit – including taxation, financial reporting and audit.

■ Strategic Professional

Develop the technical expertise, ethics and professional skills you need to make an impact in the workplace. Every element of the Strategic Professional level has a real-world focus:

■ Strategic Business Leader

This innovative case study exam is designed to mirror the workplace. You'll draw on strategy, leadership, governance and risk, innovation and sustainable performance to show you have the blend of skills employers are looking for.

■ Strategic Business Reporting

This exam takes reporting to a new level – helping you develop the skills to communicate the implications of transactions and reporting to different stakeholders.

■ Options exams

This is an opportunity to specialise in an area that's relevant to your career goals.

■ Practical Experience Requirement (PER)

This is where you put your learning into practice and gain the real-world knowledge and experience employers are looking for. To qualify as an ACCA member, you need three years' relevant professional experience – and you have to achieve a number of performance objectives. You can do all your PER in one go or in multiple blocks of time, and you can start working towards it at any stage of the ACCA Qualification.

■ Ethics and Professional Skills

This interactive module puts you in the role of an accountant in range of practical real-world scenarios. You'll work through 10 units, developing the critical workplace skills, such as problem-solving, communication and negotiation, that employers are looking for and on which you can build a career.

“ The quality of the ACCA Qualification makes a candidate well-rounded with not just technical accounting skills, but also with communication skills which is very critical as it's important to be able to communicate with those who do not also have a finance background. ”

Deepa Chandrashekar, *Acting CFO, Qatar General Insurance*

“ The ACCA Qualification tests the cognitive skills of students and develops their ability to apply technical knowledge in real life scenarios. ”

Masood Pervaiz, *Director, Centric Consulting*

Foundations in Accountancy

The Foundations in Accountancy qualifications are the perfect place to start if you are new to accountancy or if you're already working in finance but have no qualifications. You'll be starting at the right level to suit your ability and will gain a solid platform of essential skills, knowledge and behaviours to underpin your financial career.

- Achieving these qualifications would equip you to work in a variety of accounts-support roles including:
 - A junior accounts or cost clerk/junior bookkeeper role in a small or medium-sized enterprise.
 - A range of junior or cost accounting administration roles within an accounting department of a larger organisation or financial shared service centre.
- There are three levels of Foundations in Accountancy:

Applied Knowledge

The Applied Knowledge level will give you a broad understanding of essential accounting techniques including effective business operations, management accounting and financial accounting. The qualification is divided into three parts:

- Completion of all the Applied Knowledge exams along with the foundations in professionalism module, will lead students to receiving an ACCA Diploma in Accounting and Business (RQF Level 4).
- With this qualification you will be ready to apply for roles such as:
 - Trainee bookkeeper
 - Administrator
 - Trainee accountant

Completion of the Applied Skills exams, plus the Ethics and Professional Skills module, leads to the award of an Advanced Diploma in Accounting and Business.

The Advanced Diploma in Accounting and Business is benchmarked at a UK Bachelor's university degree. You can also gain a BSc (Hons) degree in Applied Accounting at the same time as studying for the Applied Skills exams through our partnership with Oxford Brookes University. Students are automatically opted into the degree when they register.

For more information on the BSc degree scheme [visit our Oxford Brookes section](#).

Ethics and Professional Skills module

Our Ethics and Professional Skills module will provide you with the complete range of skills, knowledge and behaviours that employers need.

This interactive online module supports your development as a trusted and confident finance professional, putting you in realistic business situations.

The skills you will develop within the module will greatly enhance your chances of success in the other ACCA exams. We therefore recommend that all students complete the module before attempting Strategic Professional exams.

On completion of the module you will receive a certificate of achievement to evidence your professionalism to existing and future employers.

Practical Experience Requirement

To complete PER you'll need to achieve 36 months of supervised experience in a relevant accounting or finance role. You'll also complete nine performance objectives. These allow you to demonstrate your knowledge, skills and techniques in the workplace.

You need to achieve all five of the Essentials objectives:

- Ethics and professionalism
- Stakeholder relationship management
- Strategy and innovation
- Governance, risk and control
- Leadership and management

In addition, you need to achieve any four of the 17 Technical objectives:

Corporate and business reporting

- Record and process transactions and events
- Prepare external financial reports
- Analyse and interpret financial reports

Financial management

- Evaluate investment and financing decisions
- Manage and control working capital
- Identify and manage financial risk

Management accounting

- Evaluate management accounting systems
- Plan and control performance
- Monitor performance

Taxation

- Tax computations and assessments
- Tax compliance and verification
- Tax planning and advice

Audit and assurance

- Prepare for and plan the audit and assurance process
- Collect and evaluate evidence for an audit or assurance engagement
- Review and report on the findings of an audit or assurance engagement

Advisory and consultancy

- Business advisory

Data, digital and technology

- Data analysis and decision support

You'll demonstrate your achievement of the performance objectives by performing activities in the workplace. You'll then write a statement to provide examples of your experience which demonstrates to your [practical experience supervisor](#) that you have achieved the objectives. Your supervisor will typically be your line manager or the person you report to on particular projects or activities.
