

GUIDING YOU THROUGH THE LATEST DEVELOPMENTS IN ACCA'S QUALIFICATIONS

PROGRAMME

- 08:30 **Our vision**
Judith Bennett, programme director
Judith will share with you ACCA's vision for the future of exam delivery.
- 09:15 **F4 – F9 exam development in focus**
Sharon Machado, head of e-assessment
Sharon will talk about ACCA's approach to exam development and our priorities of rigour and relevance as we transition to a computer-based exam model. She will also introduce the new formats for exams F4–F9 for the December 2014 exam session.
- 10:00 **Staying relevant in a changing world**
Gareth Owen, qualifications development manager
Gareth Owen will take you through how ACCA keeps the qualification up to date and share upcoming syllabus updates, including the introduction of integrated reporting within the professional level exams.
- 10:30 **Connecting through technology**
Alison McHugh, director of education development
Alison will examine some recent developments in learning technologies and talk about how ACCA is responding to them.
- 11:00 **Ask ACCA – live Q and A session**
Chair: Alan Hatfield, director of learning
Alison McHugh, director of education development
Clare Minchington, executive director
Catherine Edwards, director of qualifications
Judith Bennett, programme director
Join the live session to ask a question directly to the panel members.
- 12:15 **Our support for education providers**
Lucy Moore, learning support manager
Lucy will provide an overview of the support and resources available to education providers. She will introduce the Education Hub, ACCA's new resource centre for education providers, and highlight what resources you should access to keep up to date.
- 12:45 **Developments to date: a recap**
Jennie Bruce, qualifications content manager
Jennie will cover some of the developments in F1–F3 and equivalent foundation level exams, recapping on the question types that were introduced in February 2014.
- 13:15 **Developing your business through CBE**
Michelle Nicolson, head of e-transformation
Michelle will cover the benefits of computer-based exams and the opportunities these can bring to you as education providers.
