Getting started – What the examiner has said about P6 (UK) (extracts from the examiner's approach article)

“ Comments on the syllabus

Paper P6 (UK) is directly underpinned by Paper F6, *Taxation*. Knowledge and understanding of the technical content of Paper F6 is therefore vital if candidates are to be successful at Paper P6.

It is quite possible that the technical content of a Paper P6 (UK) question could be drawn almost wholly from the Paper F6 syllabus. However, such a question will require the analysis of information provided, and the application of technical knowledge to the situation in order to solve the problem.

The Paper P6 (UK) syllabus extends the coverage of income tax, corporation tax, capital gains tax and inheritance tax, as well as introducing stamp duty land tax, and stamp duty. The syllabus is very wide, as befits an optional paper at this level. New technical content is clearly identified in the *Study Guide* and will be examined regularly.

”

“ Comments on candidates' approach to the exam

It will be important that candidates think before they start to write an answer in order to identify the relevant issues, and the calculations necessary, to support their advice. In addition, they should consider whether the necessary calculations could be carried out in a particularly efficient way. For example, it may be that the client will be a higher rate taxpayer regardless of the particular strategy chosen, such that the income tax implications can be computed at the margin without the need to prepare full income tax computations. **Similarly, candidates should try to avoid producing detailed pro forma calculations (for example, of capital allowances), when a simpler working will provide the figure required.**

Section A questions may include a large number of individual requirements, as shown in Question 1 of the December 2010 exam where each sub-requirement is broken down into further requirements. Candidates must try to ensure that all the individual requirements are addressed, rather than just addressing a few in great detail.

While writing an answer, candidates must always remember who the document is for – for example, a client or a firm's files – and try to make the answer concise, practical, relevant, and helpful.

”

Learning phase

Your checklist

- Work through the control sheet which has been designed to give you a structured approach to your learning phase to ensure you:
 - gain the knowledge you need; and
 - learn how to apply that knowledge to pass the exam

Learning phase – Get the most out of your control sheet

Use the control sheet relevant to the Approved Content Provider's materials you have purchased:

- ✓ BPP Learning Media – page 12
- ✓ Kaplan Publishing – page 14

Tick the box [Content](#) in the control sheet once you have:

- ✓ Read through the introduction to the chapter
- ✓ Actively read and understood each chapter's content
- ✓ Noted any additional commentary and exam focus tips provided
- ✓ Worked through and understood examples and illustrations of concepts given

Tick the box [Quiz/Test](#) in the control sheet once you have:

- ✓ Attempted the quiz at the end of the chapter (if you are using the BPP material) or the test your understanding questions throughout the chapter (if you are using Kaplan material)

Tick the box [Questions](#) in the control sheet once you have:

- ✓ Attempted the questions referred to in the question bank – some of these you should do in full but others you can just draw up a plan for, depending on the time you have available
- ✓ Compared your answer, or plan, with the solution given and understood where you did well or not so well and why

Tick the box [ACCA related resources](#) in the control sheet once you have:

- ✓ Read / viewed the related ACCA article / video signposted

Learning phase – Tips for success

Tips for success

- ✓ Actively read the material – ask yourself ‘do I understand this?’ If not re-read and re-work examples – if you still struggle, make a note and come back to it during the revision phase.
- ✓ Scan headings before going into the detail to give you an idea of the content first and consider highlighting, underlining, making notes, drawing pictures or mind maps – whatever helps you to remember.
- ✓ Consider using the additional resources provided by the [Approved Content Providers](#) including for example passcards or pocket notes to help you remember the key knowledge areas.
- ✓ Always work through the questions signposted – it is vital that you practise questions throughout the learning phase as this will ensure that you are applying the knowledge you learn as you progress.
- ✓ Make sure you use the ACCA resources to help your understanding – these give you real insight to help you in your exam.
- ✓ If you find you are not covering all of the material in each study period, build some extra time into your planner – everyone works at a different pace.
- ✓ Keep an eye on Student Accountant for any relevant articles.
- ✓ Visit the ACCA Learning Community regularly to view new video content and to join online study events.
- ✓ There are [PER \(Practical Experience Requirement\) objectives](#) associated with specific syllabus areas and, if possible, you should try to gain experience in these alongside your studying as this will help you to put your studies into a workplace context and reinforce what you have learned.
- ✓ Try to read a good quality business journal or newspaper regularly and use this to help bring your studies to life by linking your learning into what you are reading.

Revision phase

Your checklist

- ☐ Revisit areas you struggled with during the learning phase
- ☐ Ensure you are confident with the knowledge needed to pass the exam
- ☐ Make sure you are able to apply that knowledge in questions

Revision phase – Question practice

- Exam-standard question practice is vital now
- Work through as many questions as possible and all mock exams included in the [Approved Content Provider](#) question and answer banks – remember these are best for question practice as they include past exam questions updated for syllabus and format changes
- Work through the most recent [past exam for P6 \(UK\)](#) – this will provide you with a clear picture of what the exam will look like making sure you know what to expect on the day

Tips for success

- ✓ Consider blocking time in your study plan for specific questions or mock exams to ensure you cover everything.
- ✓ Don't be afraid to attempt questions you have already done – especially the ones you found tricky first time round.
- ✓ It is really important that you do some questions in full, to exam time – time management is often an issue and the more you prepare yourself the better you will perform in the exam.
- ✓ To keep motivation high, break some questions into individual parts, write plans or notes for some parts and do others in full.
- ✓ Work through the answers carefully – pay attention to areas you got wrong and understand where you went wrong – it is better to do a few questions well, than lots of questions badly.
- ✓ Try not to look at the answers before really attempting the question – you won't be able to do this in the real exam!
- ✓ Don't forget to review the marking guide too – you need to understand how marks are allocated to ensure you know how to maximise your marks.

Revision phase – Key resources

- Review the [examiner's approach article](#) and [examiner's interview](#) again in the context of what you have learnt
- Remind yourself of areas that students often struggle with and obtain tips on how to ensure you do not make the same mistakes by reviewing the [examiner's reports](#) from the last four sittings again
- View the study support video [Capital Gains Tax](#) to better prepare you for questions in the real exam
- Read the exam technique articles – [Exam technique and fundamental technical issues - parts 1 to 4](#), [Guidance on answering Section A questions in Paper P6 \(UK\) - parts 1 to 3](#), [Improving your performance in Paper P6 \(UK\) - 5 articles](#), [Stepping up from paper F6 to paper P6 \(UK\)](#), [Passing the professional level papers - professional marks](#), [How to tackle exams - a marker's perspective](#) and [Passing the professional level papers](#) again – this time using the techniques to help you practice questions
- Make sure you read the [study skills articles in Student Accountant](#) covering topics such as how to overcome exam anxiety as well as checking the Student Accountant Hub for any new technical articles related to P6 (UK)

Tips for success

- ✓ Don't give up easily – if you really cannot understand something then consider posing a question on the ACCA Learning Community – if you found it difficult so will have others.
- ✓ Don't forget there are [professional skills modules](#) which you might find useful in giving you some practical guidance when answering questions.

Revision phase – What the examiner has said about P6 (UK) (extracts from the December 2014 examiner's report)

“ Comments on general performance ”

In general terms, those candidates who did not perform as well as they could were not sufficiently strong in the following areas:

- ✗ They did not do sufficiently well in questions 1 and/or 2 indicating a lack of practise of Section A style questions and, often, a lack of knowledge of the unincorporated trader and income tax.
- ✗ They did not spend sufficient time thinking before they started writing. This meant that they did not give themselves the chance to identify the issues that needed to be addressed and they were therefore unable to earn sufficient marks.
- ✗ They **wasted time providing information that had not been asked for.**
- ✗ They did not attempt every part of four questions.
- ✗ They did not have sufficient, precise knowledge of the tax rules required by the syllabus.

”

“ Comments on question 1 ”

Part (b) concerned the relief available in respect of the trading loss incurred and the payment of tax under self assessment.

It was in two parts.

Part (i) related to the trading loss and required candidates to calculate the tax which would be saved in respect of the offset of the trading loss depending on how the loss was relieved. This part of the question was not tackled particularly well. **Many candidates did not know the rules for the offset of trading losses well enough and were unable to determine an approach to answer the question efficiently.** As always, it was necessary to think first and decide how to approach the question in order to prepare the required answer.

With trading losses there are two main things that candidates need to know; 1) what the losses can be offset against and 2) when. Many candidates did not possess this precise knowledge and others treated the individual taxpayer as a company or made other fundamental errors.

Many candidates also failed to make use of the information in the question. In particular, the tax liability for the tax year 2013/14 was given in the question but many candidates calculated it themselves, thus wasting time. A final problem was that some candidates were unwilling to commit themselves to an answer, such that they described some of the issues but did not prepare calculations. This made it difficult for them to score particularly well.

”

Final preparation

Your checklist

- ☐ You are clear on the knowledge you need to pass the exam as well as how to apply that knowledge
- ☐ You have the skills you need to pass the exam – eg time management

Ensure you are familiar with:

- ☐ the exam format
- ☐ the style of questions
- ☐ the way the marks are allocated
- ☐ what specific syllabus areas are likely to be tested and in which questions

Final preparation – Tips for success

An extract from the syllabus and study guide for P6 (UK)

Section A consists of two compulsory questions. Question 1 has 35 marks, including 4 professional marks, and question 2 has 25 marks.

Section B consists of three 20-mark questions, two of which must be answered.

Questions **will be scenario based and will normally involve consideration of more than one tax**, together with some elements of planning and the interaction of taxes. Computations will normally only be required in support of explanations or advice and not in isolation.

- ✓ Go over questions again that you found difficult during the revision phase and make sure you attempt at least one mock again in full to time.
- ✓ If you are unsure about the exam format, the style of questions or what specific syllabus areas are likely to be tested in which questions, read the [syllabus and study guide](#) again.
- ✓ If you are not sure about how the marks are allocated review the most recent [past exam for P6 \(UK\)](#) again.

Your checklist

- ☐ Make sure you are ready to walk into your exam

The Exam – Tips for success

Tips for success

Very few students enjoy taking exams but there are things you can do to make the experience less stressful!

- ✓ Identify where the exam hall is.
- ✓ Plan your route to the exam hall, considering the time of day you will be travelling and any potential issues.
- ✓ Have in place a back-up plan in case of traffic problems or public transport delays.
- ✓ Ensure you have all the equipment you need for

the exam (black pens, calculator etc).

- ✓ Don't forget to take your exam docket with you as well as your student identification.
- ✓ Eat properly before you leave for the exam.
- ✓ Sleep properly – do not spend the night before doing last minute late night revision – you will perform so much better if you are alert and well rested (and in any case, last minute revision will only cause you to panic!).

- ✓ Try not to get into discussions with fellow students just before the exam about what might come up – again this will only cause you stress.

Once the exam is over:

- ✓ Relax.
- ✓ Don't over analyse – you cannot change anything now!

Good
Luck!
