## Getting started - Get to know your exam

- Review the [syllabus and study guide](#) ➤ This gives you an understanding of the aims and objectives of the exam, learning outcomes and exam structure

---
- Scan the F1 [specimen exam](#) ➤ The specimen exam provides you with a clear picture of how F1 will be assessed and how the exam is structured as well as the likely style and range of questions that you could see in the real exam

---
- Review the [examining team's guidance](#) ➤ Using these resources at the start of your studies will help you understand the focus of the exam by concentrating on the exam structure, question style, exam technique and tips as well as pitfalls to avoid

---
- Review the [examiner's reports from the last four sittings](#) ➤ These provide feedback on students' performance after each exam session, highlight problem areas that students need to improve on and tell you what the examining teams are looking for; these are critical to your success in passing F1 – see some of the most recent comments from your examiner over the page

---
- View the study support video [Paper F1/FAB MTQ advice](#) ➤ View this video for pointers to some of the key skills you will need to pass F1 as well as more information about the exam structure and exam technique

---
- Scan the [exam technique and syllabus updates articles](#) ➤ The articles here cover answering multiple-choice questions, computer-based exam technique and how to prepare for knowledge modules exams – you will need to come back to these during the revision phase but they will provide you with guidance that will be helpful in attempting questions throughout the learning phase

## Getting started - What the examiner has said about F1 (extracts from the examiner's approach article)

### “ Comments on paper exams:

For candidates who choose to take the paper-based version of the examination, it has to be emphasised very strongly that they must select answers in the manner required, as set down clearly in the instructions. Writing narrative answers and giving written justifications for answers is given no credit, as the required answers are objective.

**Candidates must never write out words, sentences or paragraphs.** If the candidate believes that the correct answer is B, it is only necessary to write the letter B, and nothing else. **By attempting to enhance the submission with added words, phrases or sentences, candidates simply waste valuable time that would be better spent on questions that are more challenging.**

Likewise, it is futile to write down more answers than the number required. Therefore, if there are two correct answers and the candidate writes 'B, D and E', no marks will be awarded, even if two of the selections are correct.

”

### “ Comments on CBE and paper based exams:

Syllabus topics on which candidates performed poorly included non-governmental organisations, Tuckman's team development theory, intrinsic rewards, and corporate codes of ethics. There was also evidence to suggest that candidates struggled to identify the appropriate action that should be taken by external auditors when evidence of fraud was uncovered. **Many candidates did not understand how a package of legislation would impact on the labour market and wages.** Newer organisational models (hollow, modular, virtual) and Herzberg's two factor theory presented difficulties for some.

Candidates did not always understand some of the distinctions between the role and duties of internal auditors and external auditors, or indeed some of the attributes of both.

”

# Learning phase

## Tips for success

- ✓ Actively read the material – ask yourself ‘do I understand this?’ If not re-read and re-work examples – if you still struggle, make a note and come back to it.
- ✓ Scan headings before going into the detail to give you an idea of the content first and consider highlighting, underlining, making notes, drawing pictures or mind maps – whatever helps you to remember.
- ✓ Consider using the additional resources provided by the [Approved Content Providers](#) including for example passcards or pocket notes to help you remember the key knowledge areas.
- ✓ Always work through the questions signposted – it is vital that you practise questions throughout the learning phase as this will ensure that you are applying the knowledge you learn as you progress.
- ✓ Make sure you use the ACCA resources to help your understanding – these give you real insight to help you in your exam.
- ✓ If you find you are not covering all of the material in each study period, build some extra time into your study plan – everyone works at a different pace.
- ✓ Keep an eye on Student Accountant for any relevant articles.
- ✓ Visit the ACCA Learning Community regularly to view new video content and to join online study events.
- ✓ There are [PER \(Practical Experience Requirement\) objectives](#) associated with specific syllabus areas and, if possible, you should try to gain experience in these alongside your studying as this will help you to put your studies into a workplace context and reinforce what you have learned.
- ✓ Try to read a good quality business journal or newspaper regularly and use this to help bring your studies to life by linking your learning into what you are reading.

# Revision phase

## Your checklist

- Revisit areas you struggled with during the learning phase
- Ensure you are confident with the knowledge needed to pass the exam
- Make sure you are able to apply that knowledge in questions

## Revision phase – Question practice

- Exam-standard question practice is vital now
- Work through as many questions as possible and all mock exams included in the [Approved Content Provider](#) question and answer banks - remember these are best for question practice as they include past exam questions updated for syllabus and format changes
- Work through the [specimen exam](#) – this will provide you with a clear picture of what the exam will look like making sure you know what to expect on the day

### Tips for success

- ✓ Consider blocking time in your study plan for specific questions or mock exams to ensure you cover everything.
- ✓ Don't be afraid to attempt questions you have already done – especially the ones you found tricky first time round.
- ✓ It is really important that you do some questions in full, to exam time – time management is often an issue and the more you prepare yourself the better you will perform in the exam.
- ✓ To keep motivation high, break some questions into individual parts, write plans or notes for some parts and do others in full.
- ✓ Work through the answers carefully – pay attention to areas you got wrong and understand where you went wrong – it is better to do a few questions well than lots of questions badly.
- ✓ Try not to look at the answers before really attempting the question – you won't be able to do this in the real exam!

## Revision phase – Key resources

- Review the [examining team's guidance](#) again in the context of what you have learnt
- Remind yourself of areas that students often struggle with and obtain tips on how to ensure you do not make the same mistakes by reviewing the [examiner's reports](#) from the last four sittings again
- View the study support video [Paper F1/FAB MTQ](#) advice again
- Read the [exam technique and syllabus updates articles](#) – this time linking into what you have learnt
- Make sure you read the [study skills articles in Student Accountant](#) covering topics such as how to overcome exam anxiety as well as checking the Student Accountant Hub for any new technical articles related to F1

### Tips for success

- ✓ Don't give up easily – if you really cannot understand something then consider posting a question on the ACCA Learning Community – if you found it difficult so will others.
- ✓ Don't miss the [specimen exam](#) – this is a full example of the exam available for both paper and CBE format and replicates the exam environment – attempt in full to time.
- ✓ Think about purchasing a [Practice Test](#) – practice makes perfect and, even better, you get personalised feedback diagrams highlighting your strengths and weaknesses, so you can refine your revision. See the [Practice tests video](#) on the student section of the website for more information on how useful these can be for your revision

## Revision phase - What the examiner has said about F1 (extracts from December 2015 examiner's report)

### “ Comments on Section B

Many of the questions in part B of the exam are based on scenarios, and as such are likely to take the average candidate longer to work through in accordance with the mark allocations for these questions. However, **candidates should not be intimidated by questions of this type**, as they provide adequate information from which correct answers can be deduced. It is notable that some candidates did not complete a full set of answers to part B questions, and a small minority did not attempt this part of the exam at all.

It is **extremely unwise to rely on performance in part A** of the exam being sufficient to achieve a pass mark, and this is underlined by the fact that some who did not attempt some of the part B questions did not quite do enough to achieve a pass mark. Some areas tested in part B of the exam caused difficulties. These included different macro-economic policy instruments, and the different applications of coaching, counselling and mentoring.

”

### “ Sample Question 3 on leadership theories

Which of the following theorists suggested that leaders can emerge, rather than be formally designated?

- A Kotter
- B Heifetz
- C Adair
- D Mintzberg

This question was a test of whether candidates could **recognise the essential features of leadership theories and attribute them to the relevant writer**. Kotter's theory is concerned with the leader's responsibilities in coping with changes, and focuses on differences between 'leadership' and 'management'. Adair's work relates to the effectiveness of leaders in achieving a balance between achieving the task, maintaining the team and developing individuals. Mintzberg considers the roles of leaders. It is Heifetz who proposed that leaders can emerge informally in his theory of dispersed leadership.

The correct answer is B.

”

# Final preparation

## Your checklist

- You are clear on the knowledge you need to pass the exam as well as how to apply that knowledge
- You have the skills you need to pass the exam – eg time management

## Ensure you are familiar with:

- the exam format
- the style of questions
- the way the marks are allocated
- what specific syllabus areas are likely to be tested and in which questions

## Final preparation - Tips for success

### “ An extract from the **Syllabus and study guide for F1**

The syllabus for FAB/F1, Accountant in Business introduces students who may not have a business background, to the business, which as an entity is made up of people and systems which interact with the environment and with each other.

The syllabus begins with examining the purpose and types of business which exist, the key stakeholders and the rights and responsibilities that businesses have in connection with them, exploring the external influences that affect the business in its environment, including economic, legal, social and technological factors.

The syllabus then examines the structure and functions of business, focusing on corporate governance and the specific accounting related roles in this process, particularly in financial reporting, assurance, control and compliance.

The syllabus then introduces key leadership, management and people issues such as effective individual and team behaviour, motivation and personal effectiveness. ”

### “ An extract from the **F1 specimen exam answer**

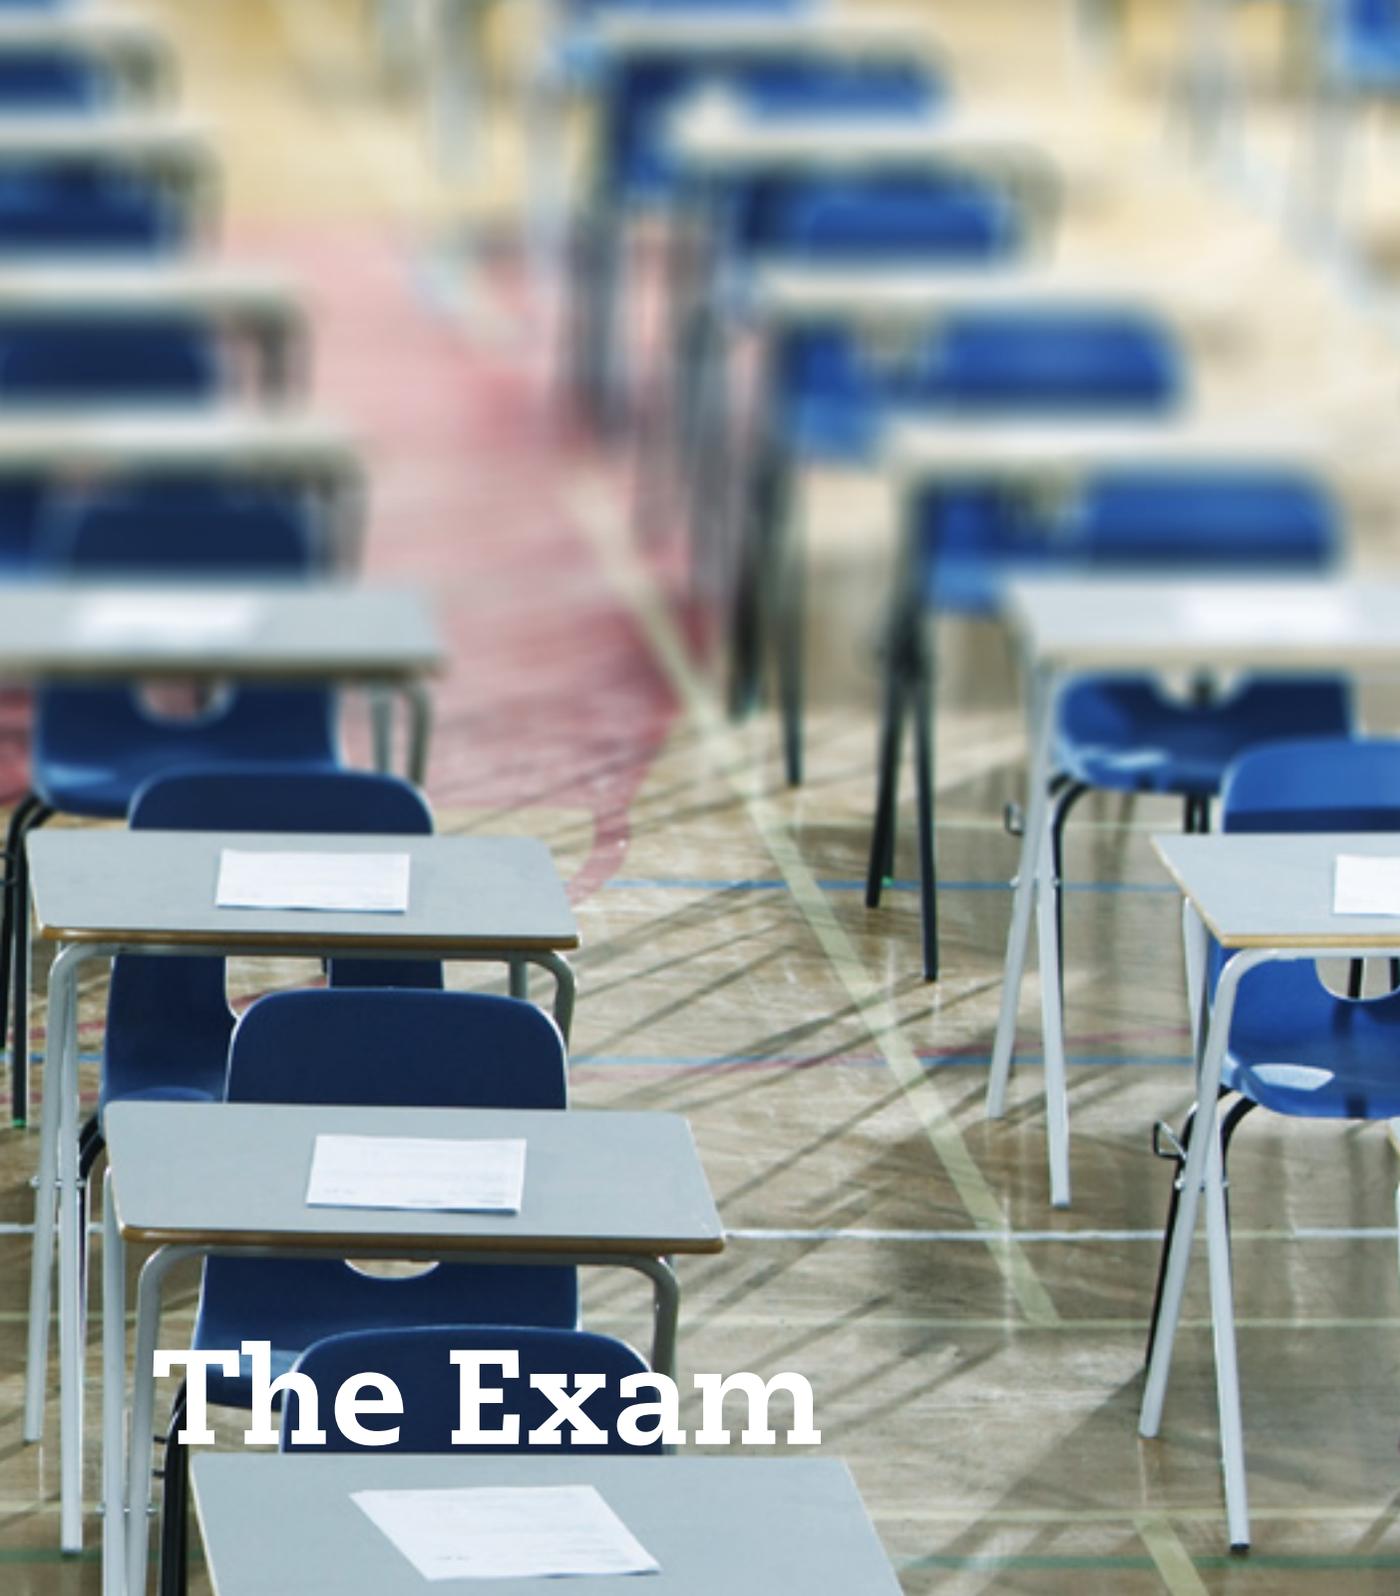

#### Section A

- 1 B The IASB aims to promote consistency in corporate reporting by creating financial reporting standards to which major businesses are expected to adhere.
- 2 B The Ashridge model identifies four styles: autocratic; authoritarian; consultative; laissez-faire (or participative). The first of these is the least participative.
- 3 B Negotiation gives the best opportunity for the two sides in a conflict to converge their positions. The other options either involve backing down, forcing a position, potentially increasing conflict, or leaving the issue unresolved. ”

### Tips for success

- ✓ Go over questions again that you found difficult during the revision phase and make sure you attempt at least one mock again in full to time.
- ✓ If you are unsure about the exam format, the style of questions or what specific syllabus areas are likely to be tested in which questions, read the [Syllabus and Study Guide](#) again.
- ✓ If you are not sure about how the marks are allocated review the [specimen exam](#) again.

# The Exam

## Your checklist

- Make sure you are ready to walk into your exam

# The Exam - Tips for success

## Tips for success

**Very few students enjoy taking exams but there are things you can do to make the experience less stressful!**

- ✓ Identify where the CBE centre (if you have entered for the computer based exam) or exam hall (if you have entered for the paper based exam) is.
- ✓ Plan your route to the CBE centre or exam hall, considering the time of day you will be travelling and any potential issues.

- ✓ Have in place a back-up plan in case of traffic problems or public transport delays.
- ✓ Ensure you have all the equipment you need for the exam (black pens, calculator etc).
- ✓ Don't forget to take your exam docket with you as well as your student identification.
- ✓ Eat properly before you leave for the exam.
- ✓ Sleep properly – do not spend the night before doing last minute late night revision – you will perform so much better if you are alert and

well rested (and in any case, last minute revision will only cause you to panic!).

- ✓ Try not to get into discussions with fellow students just before the exam about what might come up – again this will only cause you stress.

### Once the exam is over:

- ✓ Relax.
- ✓ Don't over analyse - you cannot change anything now!

Good  
Luck!
