

To enhance members' knowledge and skills in contemporary application software, *ACCA Hong Kong* will be organising a series of IT training courses which will be delivered by experienced tutors of Infocan Training Limited. Details of the courses are as follows:

	Accounting & Financial Professionals (ACCA15B01)			
	Y TOPICS			
 Date and Time Functions TODAY, NOW, DATE, TIME, YEAR, MONTH, DAY, HOUR, MINUTE, SECOND Database Functions DAVERAGE, DCOUNT, DCOUNTA, DMAX, DMIN, DPRODUCT, DSUM Information Functions COUNTBLANK, ISBLANK, ISERR, ISERROR, ISLOGICAL, ISNONTEXT, ISNUMBER, ISTEXT Logical Functions IF, AND, OR, NOT, TRUE, FALSE Lookup Functions HLOOKUP, VLOOKUP, LOOKUP, MATCH Math and Trigonometry Functions ABS, COUNTIF, INT, MOD, RAND, PRODUCT 	 SUMIF, SUMPRODUCT, ROUND, ROUNDUP, ROUNDDOWN Statistical Functions AVERAGEA, COUNTA, MODE, MEDIAN Text Functions EXACT, LEFT, RIGHT, MID, LEN, SUBSTITUTE, TEXT, VALUE, TRIM, UPPER, LOWER, PROPER, CONCATENATE, DOLLAR Accounting Functions SLN, DDB, SYD, VDB Financial Functions and Formulas PMT, IPMT, PPMT, PV, FV Introduction to financial formulas Uses of financial functions and formulas Introduction to arrays Uses of array formulas 			
DEPENIIISITE. A working knowledge of using PCs in the	Microsoft Windows environment is required, and a familiarity with			
SOFTWARE VERSION: Office 2010 COURSE DURATION: 9 Hours (3 sessions – 3 hours per session) Microsoft Excel Advanced Formulas and Functions for Accounting and Financial Professionals (ACCA15B02)				
	for Accounting and Financial Professionals (ACCA15B02)			
KE	for Accounting and Financial Professionals (ACCA15B02) Y TOPICS			
 KE^x Reference Functions INDIRECT, OFFSET, INDEX, MATCH Information Functions CELL, ISNA Database Functions Review and More DSUM, DAVERAGE, DCOUNT, DCOUNTA, DMAX, DMIN, DGET Incorporate INDIRECT / OFFSET / DGET with other database and logical functions Creating Framework for Data Manipulation from Multiple Sources Enhance the usage of advanced filter with formula criteria Prevent inaccurate result by utilising sets of 	for Accounting and Financial Professionals (ACCA15B02)			
 KE^x Reference Functions INDIRECT, OFFSET, INDEX, MATCH Information Functions CELL, ISNA Database Functions Review and More DSUM, DAVERAGE, DCOUNT, DCOUNTA, DMAX, DMIN, DGET Incorporate INDIRECT / OFFSET / DGET with other database and logical functions Creating Framework for Data Manipulation from Multiple Sources Enhance the usage of advanced filter with formula criteria 	 for Accounting and Financial Professionals (ACCA15B02) Y TOPICS Summarise data by combining use of functions Combo formula technique Use functions to retrieve metadata for collaboration Attractive Dashboard Presentation Visualise performance data by Dashboard Meter indicator Arrow indicator Colour bar indicator More Complicated Text Extraction with Functions FIND, SEARCH Creating an Aging Report with Date Functions DATEDIF, NETWORKDAYS, DAYS360 Table Referencing Sample on Exchange Rate Get data from Internet through Web Query 			

		art Method for Intermediate Level (ACCA15B03)
		(TOPICS
	Jsing Named Ranges in Financial Statements	Managing Workbooks
-	- Add and delete a named range	 Create and modify hyperlinks
-	 Use a named range in a formula 	 Organise worksheets
ŀ	Auditing Worksheets	 Preview data in other views
-	- Apply data validation rules and display user prompts	 Customise Window layout
-	 Work with the auditing toolbar 	 Setup pages for printing
	- Trace and fix errors	 Print data
-	 Trace precedents and dependents 	 Working with Multiple Workbooks
-	- Use the formula error checker and formula evaluator	 Save different views of a workbook
-	 Use the watch window to view results in cells 	 Use a workspace file
-	 Display formulas in worksheet cells 	 Link workbooks
• [Formatting Data and Content	 Workbook Templates and Add-Ins
-	 Create and apply custom data formats 	 Create, edit and apply accounting and financial templates
-	- Use conditional formatting	 Use workgroup templates
-	- Format and resize graphics	 Load an Add-in programme
-	- Format charts and diagrams	Sorting and Filtering Data
• 1	mporting and Exporting Financial Data	– Create Table
	- Import data to Excel	 Perform single and multi-level sorts
	- Export data from Excel	
	- Use Paste Special to import and manipulate data	 Apply a filter to a data list Organising and Analysing Data
. ī	Norkgroup Collaboration in Accounting Environments	– Use subtotals
• •	Morkgroup Collaboration III Accounting Environments	– Use Scenarios
-	- Modify passwords, protections, and properties	
-	- Create a shared workbook	 Create PivotTable and PivotChart reports
-	- Track, accept and reject changes in financial report	– Goal Seek
-	 Review a workbook using comments 	 What is Solver
-	 Merge accounting and financial documents 	Using Macros in Excel
		 Record a macro
		 Run a macro from the menu or the keyboard
		 Assign a macro to a toolbar button or a menu
		 Implement macro virus file protection
PR'	EREQUISITE: Experience of creating, formatting and pri	nting worksheets with Microsoft Excel, with knowledge of basic
r		o o o

PowerPivot for Excel 2010 Users (Course Code: ACCA13B05)			
	TOPICS		
 Creating and Using Databases What is a Database? 	PowerPivot Functions PowerPivot Expressions		
PowerPivot Introduction	 Create a Time Table 		
 PowerPivot Introduction 	 Use DATE Functions 		
 Navigate the PowerPivot windows 	 Use TIME INTELLIGENCE Functions 		
PowerPivot Data Sources	Use STATISTICAL Functions		
 Supported Data Sources 	 Use VALUE Functions Use LOGICAL and INFORMATION Functions 		
 Load Data From SQL Server Load Data From Text Files 	 Use TEXT Functions 		
 Load Data via Copy and Paste 	 Building Reports using PowerPivot 		
 Cleaning data in PowerPivot 	 PowerPivot Reports 		
 Create Řelationship between Data Sources 	Use PivotCharts		
	Use Slicers		
PREREQUISITE: General knowledge of Windows and Excel	Use Sparklines		
	DURATION: 6 Hours (2 sessions – 3 hours per session)		
Developing Business Applications Using Mi	crosoft Excel Macros and VBA (ACCA15B06)		
KEY	TOPICS		
Introduction to Excel Macros	 Excel Workbooks and Worksheets 		
 What is a macro? 	 Work with common worksheet tasks / workbook tasks 		
- Record a macro	VBA Codes Usage of variables and different data types		
 Run a macro Relative references 	 Usage of variables and different data types User Interaction, MsgBox and InputBox 		
 Assign a macro to a button on a worksheet 	 Oser interaction, MisgBox and inputbox Conditions such as IfThenElse 		
 Assign a macro to a button on the Quick Access Toolbar 	r – Logical Select Case		
Editing Excel Macros	 Looping such as Do Loop 		
 The Visual Basic editor 	 Structure of Procedures 		
 The project explorer 	 Call procedures 		
 The code window Procedures 	 Organise procedures Controls, Dialogue Boxes and Forms Built-in dialogue boxes 		
 Procedures Insert comments 	 Built-in dialogue boxes 		
 Print Visual Basic module 	 Custom forms 		
Working with Objects Introduction to objects and collections	 Add form controls 		
 Introduction to objects and collections 	 Control and dialogue box events 		
 Control objects 	 Handle form controls 		
 Use the object browser Use objects, properties and methods 	 Debugging and Error Trapping Use debug window 		
 The Range Object 	 Break mode 		
– What is the range object?	 Instant watch 		
 The cells property 	 Stepping through code 		
 The range property 	 Error handling 		
 Flexible ranges Range contents 			
PREREQUISITE: A thorough working knowledge of Microsoft	Excel is required. No knowledge of Visual Basic is needed		
SOFTWARE VERSION: Office 2010 COURSE	DURATION: 18 Hours (6 sessions – 3 hours per session)		
	· · · ·		
Financial Budgeting and Analysis	s with Microsoft Excel (ACCA15B07)		
	TOPICS		
Overview	Calculating Free Cash Flow		
– Budget	 Free Cash Flow Calculation 		
 Financial models Building Operating Budget 	 Financial Statements Status Sonsitivity Analysis 		
 Building Operating Budget Assumptions and Dashboard 	 Sensitivity Analysis Developing Dashboard in Microsoft Excel 		
 Assumptions and Dashboard The Sales and Collections Budget 	 Creating Data Tables in Microsoft Excel 		
 The Cost-of-Goods-Sold Budget 	 Contribution Margin Analysis 		
 The Inventory and Purchases Budget 	 Fixed and Variable Costs 		
 The Operating Expenses Budget 	 Contribution Margin 		
Budgeted Statement of Income	 Operating Leverage 		
Establishing Financial Budget The Capital Budget	 Breakeven Point Introducing Mathematical Eulertions In Microsoft Even 		
 The Capital Budget The Cash Budget 	 Introducing Mathematical Functions In Microsoft Excel Financial Ratio Analysis 		
 Budgeted Balance Sheet 	 Profit Margins 		
Consolidating Financial Statements	– Investment Returns		
 Balance Sheet 	 Management Efficiency 		
 Income Statement 	 Using Financial Functions in Microsoft Excel 		
 Statement of Cash Flow 	 Applying Macro in Microsoft Excel for Financial 		
	Statement		
PREREQUISITE: General knowledge of Windows and Excel	DUDATION: 10 Hourse (4 coordinate: 2 hourse states)		
SOFTWARE VERSION: Excel 2007 COURSE	DURATION: 12 Hours (4 sessions – 3 hours per session)		

Effective Use of Mierosoft Event 2012 for Pusiness Analysis (ACCA15D09)				
Effective Use of Microsoft Excel 2013 for Business Analysis (ACCA15B08) KEY TOPICS				
 Preprocess Clean Up Your Data With Text Functions LEFT, RIGHT, MID FIND, LEN TRIM UPPER, LOWER, PROPER SUBSTITUTE TEXT, VALUE 	 Consolidation By Position Consolidation By Category PivotTable PivotTable Fundamentals Introduce PivotTable Understand How The PivotTable Summarize Data Create A Basic PivotTable Clean Up Your Data Before Creating PivotTable 			
 Filtering Use Advanced Filter To Screen Your Data Understand Advanced Filter Set Up Criteria Table Set Complicated Criteria For Filtering Use Formula To Help Filtering 	 Insert A PivotTable Understand Different Area In A PivotTable Add Fields Into PivotTable Extract Data For Each Summarized Entry Customize Fields In A PivotTable Change Summarizing Method On Data Field 			
 Lookup and Reference Use VLOOKUP Formula To Reference Data Understand The VLOOKUP Formula VLOOKUP Reference Table Setting Error Handling On VLOOKUP Compensate VLOOKUP With Other Reference Functions Fix Source Data With Converting Data Between Text And Number 	 Change Number Format Of Data Field Create Running Total Or Other Representation Format Your PivotTable Report Change The Layout Of The PivotTable Apply Styles To The PivotTable Control The Way You View Your Pivot Data Hide And Show Grand Totals And Subtotals Perform Sorting And Rearranging Field Orders Apply Filter To Show Interested Items 			
 Dynamic Data Range Introduce Table Create And Use Table Quick Summary Using Total Row Remove Duplicate In Table Notation In Table When Writing Formula 	 Apply Slicer To Quickly Selected Items Create New Grouping With Date And Numerical Fields Manual Grouping Fields To Create Meaningful Analysis Update Data In PivotTable Modification In Data Source Insertion Of New Data 			
 Data Validation Ensure Data Correctness By Validation Different Type Of Data Validation Create A Drop Down List For Entry Provide An Input Message Change Alert Type For Allowing Exception Data Consolidation 	 Create And Use PivotChart Create PivotChart Format The PivotChart Filter With PivotChart Filter Pane Macro Record Macro For Daily Routine 			
 Summarize Similar Structured Data 	 Macro Recording Run Macro 			
PREREQUISITE: Basic to intermediate knowledge of Excel.				
	DURATION: 6 Hours (2 sessions – 3 hours per session)			
Microsoft Word for Accountants (ACCA15B09) KEY TOPICS				
 Managing document content Insert External Information (Excel) Make use of Content Controls Reuse content by creating Quick Part Managing Format with Style and Effect Create style Modify style Apply and clearing style 	 Create Mail Merge with step by step wizard Use button on Ribbon for Mail Merge Mail Merge for creating labels and envelop Collaboration and Sharing Track changes by different users Compare and Merge documents Introduce co-authoring Safely viewing document downloaded with Protected 			
 Inspect style of selected text 	View Share on Web or ShareDoint			

- Inspect style of selected text
 Compare selected text with a style
 Add text effect _
- Layout Document Content ٠
- Layout Document Content
 Use paragraph setting to control pagination
 Control picture layout with wrapping
 Creating Reference

- _
- Add Caption to pictures and tables Create Table of Content Create Table of Figure Create an Index at the end of document Add Footnote and Endnote Create Bibliography _
- _
- Create Bibliography
- Use Cross Reference

 Link Document and Database with Mail Merge
 PREREQUISITE: General knowledge of Windows and Word.
 SOFTWARE VERSION: Office 2010
 COURSE COURSE DURATION: 12 Hours (4 sessions – 3 hours per session)

- Snare on Web or SharePoint
 Managing Document Versions

 Create a New Version of a Document

Payment Method

- 1. Credit card: Online enrollment for payments by credit cards is available at https://app.infocan.net/acca. Only VISA, MASTERCARD and AMERICAN EXPRESS will be accepted.
- Cheque: A separate cheque is required for each course title. Cheque(s) MUST be attached to the completed enrolment form. The cheque should be made payable to "Infocan Training Limited" and sent to the Infocan Office on 8/F, Yen Sheng Centre, 64 Hoi Yuen Road, Kwun Tong, Kowloon. Otherwise Infocan reserves the right to reject the enrolment.

```
IMPORTANT NOTES
```

- . Please take a moment and check the accuracy of all the information you provided. Infocan will issue the receipt and certificate for you based on the information. After your receipt and certificate are issued, an administration fee of HK\$50 shall be charged for each request for change.
- ACCA Hong Kong or Infocan reserve the right to cancel or make any changes to the courses. No refund will be made unless the course is cancelled due to insufficient participants.
 The event may be cancelled/re-scheduled when typhoon no. 8 or black rainstorm warning is hoisted. Enrolees will be notified for the schedule of the make-up class. No refund will be made if the participants cannot join the make-up class. Please refer to Infocan website at http://www.infocan.net/acca/weather for detailed arrangements.
- Once the enrolment form is submitted, the enrole will then be assigned a class per course based on his/her own choices. No cancellation or change of course/class/schedule is accepted. No other arrangements (e.g. make-up session, etc.) may be offered.
- 5. To facilitate the orderly allocation of enrolments via fax and mail, valid applications will be processed on a first-come-first-served basis for enrolments through each individual means. Infocan reserves the absolute right to make adjustments to the allocation of enrolments between different application channels in response to prevailing application status. In case the event is over-subscribed, the priority of enrolments will be given in the following order: ACCA Members, Affiliates, Staff of Approved Employers and Non-members.
 6. Members must fill in their membership number for verification of their status. Enrolment forms with incomplete information will not be accepted.
- Member's must full in their membership number for verification of their status. Enforment forms with incomplete information will not be accepted.
 Each enrolee will be notified via EMAIL of the result of their application for enrolment about one week prior to the course commencing. In case you cannot provide your email, the notification will be sent by fax. If you do not receive any notifications regarding the enrolment status, please contact Infocan. You can check the progress of your application online at https://app.infocan.net/acce/status after receiving your login ID and password. All unsuccessful application forms will be shredded after the event unless those which are paid by cheque will be returned to the enrolees.
- Personal data held by ACCA related to you will be kept confidential but they may be transferred to a third party providing services to ACCA in relation to the organisation of these courses.
 Any personal data provided in this form will only be used for the purpose of carrying out the above-mentioned courses. You are required to supply the data in order to process your enrolment. You have rights of access and correction with respect to your personal data. If you wish to exercise these rights with respect to your personal data held by us, please contact Infocan.
