

LEADING TREASURY
PROFESSIONALS

AMCT DIPLOMA

in Treasury

Internationally recognised, benchmark treasury qualification, offered by the profession, for the profession. Gain expertise in the essential topics within treasury, risk and corporate finance and speak the common technical language of treasury.

Who is it for?

AMCT will deliver on your career needs and goals if you:

- have responsibility for corporate treasury – either exclusively or as part of a broader financial remit
- want to advance your treasury career and need to consolidate your knowledge and experience with a qualification that demonstrates your dedication and expertise
- are an accountant looking to advance to more strategic roles and need to enhance your financial skill set
- are a banker or relationship manager who needs to understand the requirements of your corporate clients in order to advise them more effectively
- are a financial analyst who wants to develop your career in corporate finance, risk management and specialist treasury activities

What will you learn?

- Use the tools and techniques of treasury management
- Understand the role of finance and treasury in a company
- Understand and interpret the value of accountancy and tax as well as the more complex treasury areas of corporate finance and risk management
- Apply treasury knowledge and understanding to real world scenarios
- Analyse treasury-specific information
- General treasury knowledge reinforced with specialist knowledge in areas of treasury or corporate finance of particular relevance to you

Why study AMCT?

- Bolster your career development with an extensive financial knowledge base and skill set that enables you to drive your business forward
- Enhance your career with the benchmark professional qualification from the leading provider of international treasury education
- Be eligible to become an Associate member of the ACT which offers continuous professional development and networking opportunities
- Advance your career with practical expertise and an in-depth understanding of the wider context of treasury.
- Qualified accountants are exempt from Stage 1 and can fast-track straight to Stage 2

“QUALIFYING FOR ACCA AND AMCT GAVE ME THE NECESSARY BOOST TO MY CAREER. IT IS WORTH THE EFFORT IF YOU WANT TO BECOME SOMEBODY WHO WANTS TO BE ABLE TO DISCUSS DIFFERENT ISSUES WITH MANAGEMENT AT A LEVEL PLAYING FIELD.”

Luuk Overbeek,

Head of Middle Office & Treasury Controller, Bunge Ltd

How is the qualification structured?

AMCT Diploma is composed of 4 certificates that provide a complementary build up of knowledge and skills.

Our recommended route is to take the certificates in the order of their stages, but you can choose the order that suits your needs and goals.

Two compulsory certificates

Stage 1:

Financial Fundamentals (CertFin)

- Financial understanding that underpins corporate treasury

Stage 2:

International Treasury Management (CertITM)

- Understanding of the core elements of treasury
- Technical skills combined with practical application
- Principles and techniques of treasury, risk and corporate financial management
- International focus

Two elective certificates

Stage 3 elective options:

- International Cash Management (CertICM)
- Risk Management (CertRM)
- Corporate Finance and Funding (CertCFF)
- Financial Maths and Modelling (CertFMM)

Stage 3 allows you to develop in-depth understanding and skill sets of key aspects of treasury, risk and corporate finance. Your choice of two electives allows you to tailor the AMCT Diploma to your specific needs and aspirations, providing you with demonstrable expertise in your specialist areas of interest.

As an ACCA qualified accountant you are exempt from Stage 1 CertFin, and can **fast track** straight onto Stage 2 CertITM. You are also eligible for a **10% discount** off of the CertITM fee. Simply enter your unique discount code:
