

Advanced Taxation (UK) (P6) June & December 2014

This syllabus and study guide is designed to help with planning study and to provide detailed information on what could be assessed in any examination session.

THE STRUCTURE OF THE SYLLABUS AND STUDY GUIDE

Relational diagram of paper with other papers

This diagram shows direct and indirect links between this paper and other papers preceding or following it. Some papers are directly underpinned by other papers such as Advanced Performance Management by Performance Management. These links are shown as solid line arrows. Other papers only have indirect relationships with each other such as links existing between the accounting and auditing papers. The links between these are shown as dotted line arrows. This diagram indicates where you are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

Overall aim of the syllabus

This explains briefly the overall objective of the paper and indicates in the broadest sense the capabilities to be developed within the paper.

Main capabilities

This paper's aim is broken down into several main capabilities which divide the syllabus and study guide into discrete sections.

Relational diagram of the main capabilities

This diagram illustrates the flows and links between the main capabilities (sections) of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

Syllabus rationale

This is a narrative explaining how the syllabus is structured and how the main capabilities are linked. The rationale also explains in further detail what the examination intends to assess and why.

Detailed syllabus

This shows the breakdown of the main capabilities (sections) of the syllabus into subject areas. This is the blueprint for the detailed study guide.

Approach to examining the syllabus

This section briefly explains the structure of the examination and how it is assessed.

Study Guide

This is the main document that students, tuition providers and publishers should use as the basis of their studies, instruction and materials. Examinations will be based on the detail of the study guide which comprehensively identifies what could be assessed in any examination session. The study guide is a precise reflection and breakdown of the syllabus. It is divided into sections based on the main capabilities identified in the syllabus. These sections are divided into subject areas which relate to the sub-capabilities included in the detailed syllabus. Subject areas are broken down into sub-headings which describe the detailed outcomes that could be assessed in examinations. These outcomes are described using verbs indicating what exams may require students to demonstrate, and the broad intellectual level at which these may need to be demonstrated (*see intellectual levels below).

Learning Materials

ACCA's Approved Learning Partner - content (ALP-c) is the programme through which ACCA approves learning materials from high quality content providers designed to support study towards ACCA's qualifications.

ACCA has one Platinum Approved Learning Partner content which is BPP Learning Media. In addition, there are a number of Gold Approved Learning

Partners - content.

For information about ACCA's Approved Learning Partners - content, please go to ACCA's Content Provider Directory.

The Directory also lists materials by Subscribers, these materials have not been quality assured by ACCA but may be helpful if used in conjunction with approved learning materials. You will also find details of Examiner suggested Additional Reading which may be a useful supplement to approved learning materials.

ACCA's Content Provider Directory can be found here–
http://www.accaglobal.com/learningproviders/alpc/content_provider_directory/search/.

Relevant articles will also be published in Student Accountant.

INTELLECTUAL LEVELS

The syllabus is designed to progressively broaden and deepen the knowledge, skills and professional values demonstrated by the student on their way through the qualification.

The specific capabilities within the detailed syllabuses and study guides are assessed at one of three intellectual or cognitive levels:

Level 1: Knowledge and comprehension
Level 2: Application and analysis
Level 3: Synthesis and evaluation

Very broadly, these intellectual levels relate to the three cognitive levels at which the Knowledge module, the Skills module and the Professional level are assessed.

Each subject area in the detailed study guide included in this document is given a 1, 2, or 3 superscript, denoting intellectual level, marked at the end of each relevant line. This gives an indication of the intellectual depth at which an area could be assessed within the examination. However, while level 1 broadly equates with the Knowledge module, level 2 equates to the Skills module and level 3 to the Professional level, some lower level skills can continue to be assessed as the student

progresses through each module and level. This reflects that at each stage of study there will be a requirement to broaden, as well as deepen capabilities. It is also possible that occasionally some higher level capabilities may be assessed at lower levels.

LEARNING HOURS AND EDUCATION RECOGNITION

The ACCA qualification does not prescribe or recommend any particular number of learning hours for examinations because study and learning patterns and styles vary greatly between people and organisations. This also recognises the wide diversity of personal, professional and educational circumstances in which ACCA students find themselves.

As a member of the International Federation of Accountants, ACCA seeks to enhance the education recognition of its qualification on both national and international education frameworks, and with educational authorities and partners globally. In doing so, ACCA aims to ensure that its qualifications are recognized and valued by governments, regulatory authorities and employers across all sectors. To this end, ACCA qualifications are currently recognized on the education frameworks in several countries. Please refer to your national education framework regulator for further information.

Each syllabus contains between 23 and 35 main subject area headings depending on the nature of the subject and how these areas have been broken down.

GUIDE TO EXAM STRUCTURE

The structure of examinations varies within and between modules and levels.

The Fundamentals level examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus.

The Knowledge module is assessed by equivalent two-hour paper based and computer based examinations.

The Skills module examinations are all paper based

three-hour papers. The structure of papers varies from ten questions in the *Corporate and Business Law* (F4) paper to four 25 mark questions in *Financial Management* (F9). Individual questions within all Skills module papers will attract between 10 and 30 marks.

The Professional level papers are all three-hour paper based examinations, all containing two sections. Section A is compulsory, but there will be some choice offered in Section B.

For all three hour examination papers, ACCA has introduced 15 minutes reading and planning time.

This additional time is allowed at the beginning of each three-hour examination to allow candidates to read the questions and to begin planning their answers before they start writing in their answer books. This time should be used to ensure that all the information and exam requirements are properly read and understood.

During reading and planning time candidates may only annotate their question paper. They may not write anything in their answer booklets until told to do so by the invigilator.

The Essentials module papers all have a Section A containing a major case study question with all requirements totalling 50 marks relating to this case. Section B gives students a choice of two from three 25 mark questions.

Section A of both the P4 and P5 Options papers contain one 50 mark compulsory question, and Section B will offer a choice of two from three questions each worth 25 marks each.

Section A of each of the P6 and P7 Options papers contains 60 compulsory marks from two questions; question 1 attracting 35 marks, and question 2 attracting 25 marks. Section B of both these Options papers will offer a choice of two from three questions, with each question attracting 20 marks.

All Professional level exams contain four professional marks.

The pass mark for all ACCA Qualification examination papers is 50%.

GUIDE TO EXAMINATION ASSESSMENT

ACCA reserves the right to examine anything contained within the study guide at any examination session. This includes knowledge, techniques, principles, theories, and concepts as specified.

For the tax papers, ACCA will publish *examinable documents*, or tax rates and allowances tables, once a year to indicate exactly what legislation could potentially be assessed within identified examination sessions. These should be read in conjunction with the information below.

For **UK** tax papers, examinations falling within the financial year 1 April to 31 March will examine the Finance Act which was passed in the previous July. I.e. Exams falling in the period 1 April 2014 to 31 March 2015 will examine the Finance Act 2013.

For **SGP** tax papers, examinations falling within the year 1 April to 31 March will be based on legislation passed before the previous 30 September. I.e. examinations falling in the year 1 April 2014 to 31 March 2015 will be based on legislation passed by 30 September 2013.

For **MYS** tax papers, examinations falling within the year 1 October to 30 September will be based on legislation passed before the previous 31 March. I.e. examinations falling in the year 1 October 2014 to 30 September 2015 will be based on legislation passed before the previous 31 March 2014.

For **CYP** tax papers, June and December examinations will be based on regulation or legislation published in the Official Gazette of the Republic of Cyprus ("the Gazette") on or before 30 September. I.e. June and December 2014 papers will be based on regulation or legislation published in the Official Gazette of the Republic of Cyprus ("the Gazette") on or before 30 September 2013.

For **CZE** tax papers, December and June examinations will be based on legislation passed before the previous 31 May. I.e. December 2014 and June 15 papers will be based on legislation in force at 31 May 2014.

For **VNM** tax papers, June and December examinations will be based on legislation passed before the previous 31 December. I.e. June and

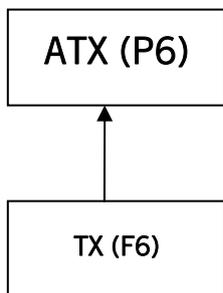

December 2014 papers will be based on legislation passed by 31 December 2013.

Tax papers for the following variants:

BWA, CHN, HUN, HKG, IRL, LSO, MWI, MLA, POL, PKN, ROM, RUS, ZAF, ZWE.

The June and December examinations will be based on legislation passed before the previous 30 September. I.e. June and December 2014 papers will be based on legislation passed by 30 September 2013.

Syllabus

AIM

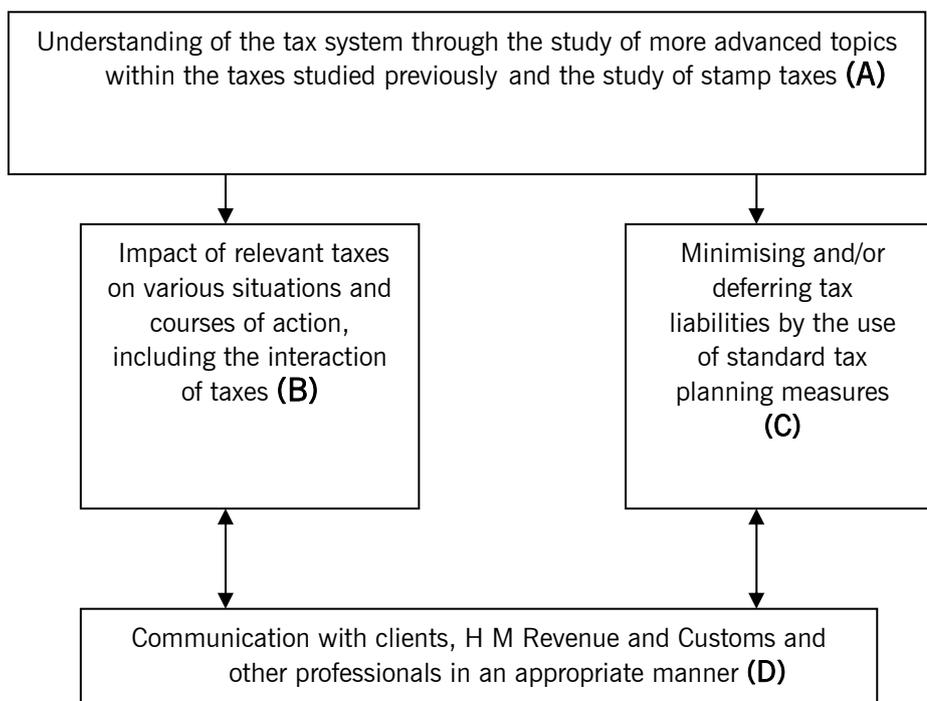

To apply relevant knowledge and skills and exercise professional judgement in providing relevant information and advice to individuals and businesses on the impact of the major taxes on financial decisions and situations.

MAIN CAPABILITIES

On successful completion of this paper candidates should be able to:

- A** Apply further knowledge and understanding of the UK tax system through the study of more advanced topics within the taxes studied previously and the study of stamp taxes
- B** Identify and evaluate the impact of relevant taxes on various situations and courses of action, including the interaction of taxes
- C** Provide advice on minimising and/or deferring tax liabilities by the use of standard tax planning measures
- D** Communicate with clients, HM Revenue and Customs and other professionals in an appropriate manner.

RELATIONAL DIAGRAM OF MAIN CAPABILITIES

RATIONALE

The Advanced Taxation syllabus further develops the key aspects of taxation introduced in the compulsory Taxation syllabus within the Skills module and extends the candidates' knowledge of the tax system, together with their ability to apply that knowledge to the issues commonly encountered by individuals and businesses, such that successful candidates should have the ability to interpret and analyse the information provided and communicate the outcomes in a manner appropriate to the intended audience.

The syllabus builds on the basic knowledge of core taxes from the earlier taxation paper and introduces candidates to stamp taxes. As this is an optional paper, aimed at those requiring/desiring more than basic tax knowledge for their future professional lives, the syllabus also extends the knowledge of income tax, corporation tax, capital gains tax and inheritance tax to encompass, further overseas aspects of taxation, the taxation of trusts and additional exemptions and reliefs.

Computations will normally only be required in support of explanations or advice and not in isolation.

Candidates are not expected to concentrate on the computational aspects of taxation. Instead this paper seeks to develop candidates' skills of analysis, interpretation and communication. Candidates are expected to be able to use established tax planning methods and consider current issues in taxation.

DETAILED SYLLABUS:

A Knowledge and understanding of the UK tax system through the study of more advanced topics within the taxes studied previously and the study of stamp taxes.

1. Income and income tax liabilities in situations involving further overseas aspects and in relation to trusts, and the application of additional exemptions and reliefs.
2. Corporation tax liabilities in situations involving overseas and further group aspects and in relation to special types of company, and the application of additional exemptions and reliefs.

3. Chargeable gains and capital gains tax liabilities in situations involving further overseas aspects and in relation to closely related persons and trusts, and the application of additional exemptions and reliefs.
4. Inheritance tax in situations involving further aspects of the scope of the tax and the calculation of the liabilities arising, the principles of valuation and the reliefs available, transfers of property to and from trusts, overseas aspects and further aspects of administration
5. Stamp taxes
6. National Insurance, value added tax and tax administration

B The impact of relevant taxes on various situations and courses of action, including the interaction of taxes

1. Taxes applicable to a given situation or course of action and their impact.
2. Alternative ways of achieving personal or business outcomes may lead to different tax consequences.
3. Taxation effects of the financial decisions made by businesses (corporate and unincorporated) and by individuals.
4. Tax advantages and/or disadvantages of alternative courses of action.
5. Statutory obligations imposed in a given situation, including any time limits for action and the implications of non-compliance.

C Minimising and/or deferring tax liabilities by the use of standard tax planning measures

1. Types of investment and other expenditure that will result in a reduction in tax liabilities for an individual and/or a business.
2. Legitimate tax planning measures, by which the tax liabilities arising from a particular situation or course of action can be mitigated.

3. The appropriateness of such investment, expenditure or measures, given a particular taxpayer's circumstances or stated objectives.
4. The mitigation of tax in the manner recommended, by reference to numerical analysis and/or reasoned argument.
5. Ethical and professional issues arising from the giving of tax planning advice.
6. Current issues in taxation.

D Communicating with clients, HM Revenue and Customs and other professionals

1. Communication of advice, recommendations and information in the required format.
2. Presentation of written information, in language appropriate to the purpose of the communication and the intended recipient.
3. Conclusions reached with relevant supporting computations.
4. Assumptions made or limitations in the analysis provided, together with any inadequacies in the information available and/or additional information required to provide a fuller analysis.
5. Other non-tax factors that should be considered.

APPROACH TO EXAMINING THE SYLLABUS

The paper consists of two sections:

Section A consists of two compulsory questions. Question 1 has 35 marks, including 4 professional marks, and question 2 has 25 marks

Section B consists of three 20-mark questions, two of which must be answered.

Questions will be scenario based and will normally involve consideration of more than one tax, together with some elements of planning and the interaction of taxes. Computations will normally only be required in support of explanations or advice and not in isolation.

The examination is a three hour paper, with 15 minutes additional reading and planning time.

Tax rates, allowances and information on certain reliefs will be given in the examination paper.
