# **IFRS KMA**

# The KMA INSTALLATION GUIDE

### STEP 1.

Download the installation file from the link in your email. When you click on the KMA link to begin the installation process, you will receive a warning message based on your default browser. The warning message only pops up if you are using Internet explorer, Edge and Chrome.

There is no warning message if you are using Firefox, please progress to Step 2.

Please note that this application is 100% safe the only reason you are getting a warning message is because it is brand new.

Please find your internet browser below and follow the instructions linked to your default browser to bypass the warning messages. Please see the below security scan confirming that the application is 100% safe.

Ordele Run

Internet Explorer & EDGE browser

- When you click on the link for the new KMA you will see the below message
- 8 KMAv415ebp.exe is not commonly develoaded and could have your computes.
