ACCA’s practical guide to apprenticeships in England

From funding and contracts to off-the-job training and further study, this is what employers need to know about apprenticeships.
Build trust with your employees and new hires by unlocking their potential with ACCA’s funded accountancy apprenticeships. We are your partner for the cost effective recruitment and development of future-ready digital-first finance professionals, essential for your organisation’s success.

Apprenticeships attract significant central government funding. They are a highly cost-effective way for you to recruit and develop ambitious new talent to help you realise your business ambitions.

Apprenticeships also have the added benefits of offering people high quality training, on-the-job experience and local employment opportunities. We’ve developed this guide to outline all the practicalities you need to consider if you are interested in taking advantage of the government’s funding to grow your own talent.

What is an apprenticeship?

An apprenticeship is a genuine job with an accompanying assessment and skills development training programme. Available in all sectors, including professions such as accounting and finance, the programmes are a great way for individuals to earn while they learn gaining valuable skills and knowledge in a specific job role. The apprentice benefits from a wide mix of learning in the workplace, formal off-the-job training and the opportunity to apply new skills in the work environment.

Apprenticeships represent a highly cost-effective way for you to recruit and develop ambitious new talent to help you realise your business ambitions.
The apprenticeship levy
A levy tax was introduced on all employers with a wage bill of £3,000,000 or above to raise funds for apprenticeship training. Employers pay 0.5% of their total payroll into the levy and that money raised is used to fund apprenticeship training. So if you are a large business already paying the levy tax, and you want to introduce apprenticeship programmes into your business, you don’t pay apprenticeship training costs because they are already covered by the levy.

The apprenticeship levy applies across the UK however funding is slightly different in Scotland and Wales. To find out more, visit Skills Development Scotland and Career Wales sites.

Employers pay 0.5% of their total payroll into the levy and money raised through the levy will be redistributed as monthly training allowances for employers taking on apprentices.

Small employers who don’t pay the levy
Most businesses don’t pay the levy but this doesn’t mean that they can’t benefit from apprenticeship funding. The government has specific financial help for smaller employers who want to fund apprenticeships programmes:

- You only has to make a 5% contribution to the cost of apprenticeship training
- The government will pay the rest (95%), up to the maximum limit of the apprenticeship funding band
- Incentives are also available if you who take on a 16-18 year old, receiving an additional payment of £1,000
- If you have fewer than 50 employees you can access full funding to train an apprentice aged 16-18 years old and those aged 19-24 years old who have previously been in care or who have local authority, education, health and care plans

Tip:
With the ‘estimate my funding’ tool on GOV.UK, you can calculate whether you pay the levy or not, and what funds you have available to spend on apprenticeships. It also shows how much the government will contribute towards the cost of training.

How apprenticeship funding works in England

- **Levy paying employer**
  - HMRC collect levy (PAYE) from UK employers
  - Employer views funds in their account (Apprenticeship Service) to spend in England
  - Employers pay 0.5% of their total payroll into the levy and that money raised is used to fund apprenticeship training.

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**
  - Pass data on levy payments from HMRC to BEIS
  - Employer and Provider Identity Assurance

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**
  - Pass data on levy payments from HMRC to BEIS
  - Employer and Provider Identity Assurance

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**
  - Pass data on levy payments from HMRC to BEIS
  - Employer and Provider Identity Assurance

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**
  - Pass data on levy payments from HMRC to BEIS
  - Employer and Provider Identity Assurance

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider

- **Non levy paying employer**
  - Training provider
    - Main providers
    - Employer providers
    - Supporting providers
  - Mandates trainee
  - Enters into a contractual agreement with ESFA and commits to provide apprenticeship training

- **Government**
  - Pass data on levy payments from HMRC to BEIS
  - Employer and Provider Identity Assurance

- **ACCA Support**
  - Receives training for apprentice
  - Payments to providers taken from Apprenticeship Service account
  - Unused funds expire after 24 months, starting May 2019

- **ACCA Support**
  - Receives training for apprentice
  - Employer pays 95% towards cost of training direct to training provider
  - Government pays 95% towards cost of training direct to the training provider
Apprenticeship funding – transfers

More support for small employers – levy transfers

Bigger levy-paying employers are able to transfer their own apprenticeship funds to other employers, through the government’s apprenticeship service. If you’re a small business and you receive a transfer from a large business, you can use that money to cover the training costs of your apprenticeship programme.

Levy-paying employers will initially be able to transfer up to 25% of funds entering their apprenticeship service account.

What to do and receive a transfer

1. Levy-paying employers will need to find an employer(s) to transfer their levy funds to. They will need to agree details of the apprenticeship including:  
   • which apprenticeship standard they are funding  
   • the number of apprentices that will be funded  
   • the duration of the apprenticeship training  
   • overall cost

2. Both employers need to understand the rules and obligations around levy transfers

3. The receiving employer has to have set up an apprenticeship service account online via the government’s portal. This will enable the employers to:  
   • connect with each other (the transferring employer must be the one that initiates the connection)  
   • add the apprentice details  
   • confirm the transfer  
   • view transfer transactions

The cost to your business

Apprenticeships are a cost-effective way to recruit and train new talent as well as up-skill existing employees at a fraction of standard recruitment costs. Government funding covers at least 95% if not the full 100% of an apprentice’s training costs and the end-point assessment. Costs that aren’t included in the levy funding would be those typical to hiring a standard employee.

As an apprentice receives the same benefits as other employees, you may want to consider the following when working out specific costs to your business:

• Annual salary  
• Number of hours your apprentice will work per week  
• Your Employer National Insurance contributions  
• Your employer contributions to a work-based pension scheme  
• How many hours will a line manager need to support your apprentice weekly  
• The level of manager resource required to support your apprentice  
• Administration costs of the apprenticeship*  

*These would include fees associated with ACCA registration and annual subscription, ACCA exams and retests, exemption fees (if an apprentice has previous qualifications that allow them to claim exemptions from certain exams) and the apprenticeship end-point assessment results (unless you provide further training for the apprentice).

Frequently asked questions on levy transfers

Who is eligible to transfer funds?

Levy-payers with an apprenticeship service account are able to make a transfer if they declared the apprenticeship levy during the previous tax year.

Who is eligible to receive funds?

All employers (levy paying or not) are able to receive a transfer. Any employers in the process of sending a transfer are unable to receive one.

What is the process for sending employers?

All organisations registered within an employers apprenticeship service account must sign the updated apprenticeship agreement before a transfer can be made from that account.

They will need to agree to cover the full cost of the apprenticeship training and assessment with the receiving employer. If the remaining funds in the employers 25% transfer allowance is less than the annual cost of the apprenticeship the employer will be unable to make the transfer.

Does the sending employer have to cover the receiving employers full apprenticeship cost?

When setting up a transfer, the sending employer agrees to cover the full cost of training and assessment up to the maximum funding band for that apprenticeship. Receiving employers cannot fund the apprenticeship service account must sign the updated apprenticeship agreement before a transfer can be made from that account.

What happens if the sending employer’s 25% transfer allowance doesn’t cover the full cost of training and assessment?

When setting up a transfer, the sending employer agrees to cover the full cost of training and assessment up to the maximum funding band for that apprenticeship. However, they only need to have sufficient funds in their annual transfer allowance to cover the annual cost of the apprenticeship. If the remaining funds in their transfer allowance is insufficient to cover the annual cost of the apprenticeship, they are unable to make the transfer.

Who can be transferred to?

Any employer regardless of whether they are levy-paying or not. Sending employers are unable to receive a transfer. If the intended receiving employer doesn’t have an apprenticeship service account, they must register for one.

Sending to and receiving from multiple employers

Eligible sending employers can transfer to any number of employers up to the maximum of their annual 25% transfers allowance.

Employers are able to receive a transfer from more than one employer. Each transfer must cover the full cost of each individual apprenticeship. Receiving employers cannot fund one apprenticeship on received funds from multiple sources.

Can a sending employer receive a transfer?

It is not possible to receive a transfer from another employer if you are already sending apprenticeship funds to another employer. Once all of the apprentices that they’re funding through a transfer have completed, they’ll be able to receive a transfer.

Government funding covers at least 95% if not the full 100% of an apprentice’s training costs and the end-point assessment.

Myth busting levy transfers – the facts

• A transfer can only be used to pay for another employer’s apprenticeships  
• It will be an exact and agreed amount  
• You can’t transfer 25% as a lump sum or a gift  
• You can make a transfer to any other employer  
• Levy-payers can receive transfers but not if they are sending a transfer themselves  
• At any one time, you can only be a sender or a receiver – you can’t do both at the same time  
• Initially you can only make a transfer to one other employer
The apprenticeship service

Through the apprenticeship service on GOV.UK you can plan and manage your apprenticeship programme, giving you greater control over your apprenticeships and account funds.

The apprenticeship service is made up of the following:

1. **Estimate my apprenticeship funding**
   - Allows you to calculate whether you pay the apprenticeship levy or not, and how much you will have available to spend on apprenticeships. It also shows all employers how much the government will contribute towards the cost of training.

2. **Find apprenticeship training**
   - Gives you easy-to-digest information on the choices available to you. You can easily search for and find a standard, framework and training provider, and compare one provider with another.

3. **Find an apprenticeship and Find a traineeship**
   - Are the recruitment sites that enable you to advertise their vacancies for free and find candidates who match their criteria. Don’t forget you can also advertise with ACCA Careers.

4. **Manage apprenticeships**
   - Allows registered levy-paying employers to view their account balance, manage their apprentices and approve funds to pay for their apprenticeship training.

5. **Provide off-the-job training**
   - This element of the apprenticeship programme must be directly relevant to the apprenticeship standard. It is a lot more flexible than you think and does not mean the apprentice will be out of the office one day a week. It can include:
     - The teaching of theory (for example, lectures, role playing, simulation exercises, online learning, training).
     - Practical training; shadowing; mentoring; industry visits and attendance at competitions
     - Learning support and time spent writing assessments/assignments

6. **Estimate my apprenticeship funding**
   - Allows you to calculate whether you pay the apprenticeship levy or not, and how much you will have available to spend on apprenticeships. It also shows all employers how much the government will contribute towards the cost of training.

What are my responsibilities as an employer of an apprentice?

You must provide the apprentice with a genuine job with the opportunity to gain the knowledge, skills and behaviours needed to achieve their apprenticeship. They must work at least 30 hours a week, be 16 or over by the end of the summer holidays, and not be in full time education. All apprenticeships must last at least 12 months.

You must give your apprentice an induction into their role and provide on and off-the-job training, as well as determining the apprentice’s salary and providing the apprentice with the same benefits as your other employees.

**There are other requirements to meet:**

1. **Contract of employment**
   - You’ll need to issue a contract of employment. It is a common misconception that employers have to switch employees onto an apprenticeship contract but they don’t. The apprenticeship contract is optional and is often used, if for instance the apprenticeship is fixed-term. Therefore you can keep your employee on exactly the same contract as they were before but you’ll need to amend the terms, should there be anything different you want to apply. For instance, changes to study leave.

2. **Apprenticeship Agreement and Commitment Statement**
   - You will need to agree the terms of the Apprenticeship Agreement with the apprentice. The Apprenticeship Agreement can be subsumed into the employment contract so it doesn’t necessarily need to be a separate document. There also needs to be a Commitment Statement.

3. **Provide off-the-job training**
   - This element of the apprenticeship programme must be directly relevant to the apprenticeship standard. It is a lot more flexible than you think and does not mean the apprentice will be out of the office one day a week. It can include:
     - The teaching of theory (for example, lectures, role playing, simulation exercises, online learning, training).
     - Practical training; shadowing; mentoring; industry visits and attendance at competitions
     - Learning support and time spent writing assessments/assignments

Tip:

**Off-the-job training can be conducted in the workplace, online, at a college or out of office hours.**

‘Smaller firms can be much more competitive in their salaries and overall package to trainees because of the apprenticeship scheme. It’s fantastic and a win-win for growing businesses, staff development and the economy as a whole.’

Alastair Barlow, Founder and Partner, Flinder
How do I recruit an apprentice?

We have outlined the steps for you here and more information is available from the devolved governments.

You will need to check the eligibility of the apprentice. Examples include, but are not limited to:
- having the right to work in England, Wales or Scotland
- be 16 years or older
- spending at least 50% of their working hours in England or Wales or Scotland
- the apprentice must work for you, a connected company or connected charity as defined by HMRC
- work enough paid hours each week to undertake sufficient training to achieve their apprenticeship

During the delivery of the Apprenticeship, the Training Provider will actively engage with your apprentice to support their development. Key stages include:

- Confidently progress through your Apprenticeship.
- Successfully complete your End-point Assessment (EPA).
- Develop the skills, knowledge, and behaviours that will help you succeed in your chosen profession.

Your apprentice will have access to study materials, computer-based assessments and ACCA’s online network of students.
ACCA’s apprenticeship programmes

ACCA professional accountancy training delivered in apprenticeship programmes

We are pleased to offer these flexible funded routes to ACCA chartered certified accountant status and membership.

Accounting Technician Apprenticeship – Level 4
An entry-level route into ACCA and the accountancy profession

This programme trains apprentices to understand the structure and functions of different businesses. Following our syllabus the apprentice will be able to create, verify and review accurate and timely financial information for their employer. They will be trained to meet relevant ethical, professional and legal standards, and will use their knowledge of business systems and processes, as well as standard accounting practices, to analyse financial information and make recommendations for your business.

</tr>
</tbody>
</table>

Structure and standard

The Accounting Technician Apprenticeship is equivalent to a foundation degree. The minimum time to complete this programme is 12 months but you should expect most individuals to complete in 12-18 months. It’s worth noting that there is no limit to the time taken to complete the apprenticeship – that will be agreed between you and your apprentice.

This apprenticeship is run over three ACCA modules, coupled with exams and an end-point assessment, so it’s easy to structure around a 12-18 month work programme. You can choose a combination of learning for your apprentice such as self-study, remote tuition or face to face tuition.

Apprentices study and take the first three exams of the ACCA Qualification which make up ACCA’s Diploma in Accounting and Business. Your apprentice will be awarded this globally-recognised Diploma by ACCA in addition to the apprenticeship award itself.

What your apprentice will learn

• Business and Technology: how businesses operate effectively, efficiently and ethically and will show the critical role finance professionals play in achieving this.
• Management Accounting: management accounting techniques to support management in planning, controlling and monitoring performance.
• Financial Accounting: the underlying principles relating to financial accounting and technical proficiency in the use of double-entry accounting techniques.
• Foundations in Professionalism: an online interactive module covering professionalism, ethics and personal effectiveness.

Assessment

Apprentices take module exams as part of ACCA’s ‘on-programme’ assessment. The exams are available on-demand and accessed online.

The end-point assessment of the apprenticeship is based on real-world scenarios, which means it is as relevant to business and the role of the Accounting Technician as the apprenticeship modules themselves. The end-point assessment must be passed for the apprentice to qualify as an Accounting Technician. It comprises of a case study exam that reflects activities undertaken as an accounting technician. Apprentices must also submit a portfolio (which includes their training log) and reflective statement. Once they have completed all of the requirements, they can submit their portfolio to ACCA for review.

Knowledge exams

ACCA’s Accounting Technician Apprenticeship structure

Cost

This apprenticeship costs £8,000 per apprentice. If you’re a levy-payer, training costs will be drawn from your levy pot.

If you’re a smaller business, you can access at least 95% funding to cover training costs. For example, to train an accounting technician apprentice, the government will fund £7600, whilst you only need to put £400 towards the training. Don’t forget the additional incentives for smaller employers as well as the levy transfer opportunity as previously outlined.

Further development

Once your apprentice has completed the Level 4 apprenticeship, they can continue their journey to ACCA chartered certified status and membership. We offer a variety of routes that allow individuals to study further, including flexible entry points into the Professional Accountant Apprenticeship (Level 7).

ACCA’s Accounting Technician Apprenticeship structure

Continue your journey to ACCA membership with options of an undergraduate degree along the way.

Knowledge

Technical knowledge, business awareness, ethical standards, regulation and compliance, systems and process.

Skills

Analysis, communication, leadership, planning and prioritisation, produces quality and accurate information, team working and collaboration, uses systems and processes.

Behaviours

Adaptability, adding value, ethics and integrity, proactivity and professional scepticism.
ACCA’s apprenticeship programmes

Professional Accountant Apprenticeship – Level 7

The funded pathway to the full ACCA Qualification

Equivalent to a Master’s degree, the Professional Accountant Apprenticeship is a platform for launching the careers of those whose aim it is to become a fully qualified finance professional able to work in any sector and at the heart of any business.

The apprenticeship follows the structure of our flagship professional accountancy qualification and has flexible entry points for those with prior qualifications and relevant experience. Those entry points are outlined later in this guide. Level 7 apprentices will be able to demonstrate organisational leadership and senior consultancy, advisory capabilities and the relevant technical, ethical and professional skills aligned to the Level 7 apprenticeship standard.

Assessment

Similar to the Accounting Technician Apprenticeship, Level 7 apprentices will take ACCA module exams throughout their training and will also have to pass an end-point assessment. The end-point assessment has been mapped to the knowledge, skills and behaviours included in the Level 7 apprenticeship standard. It includes ACCA’s Strategic Business Leader exam, a pivotal case study based on a hypothetical scenario to assess the apprentice’s understanding of complex business issues. It also requires an integration of knowledge, professional skills and behaviours.

The Project Report is a critical and evaluative reflection based on the apprentice’s relevant work experience, examining how professional skills and behaviours have been used and developed in the context of their role, their organisation and wider stakeholders.

ACCA membership – looking to the future, leading the way

Your apprentice can also become an ACCA member after successful completion of the apprenticeship, provided they have 36 months of practical experience, some of which will be gained along their apprenticeship journey.

Cost

Employers can access a maximum £21,000 funding to train a Level 7 apprentice. Employers who are not eligible to pay the levy can access at least 95% of the maximum funding, equating to £19,950.

It is anticipated that apprentices will typically complete the Level 7 apprenticeship in 36 months. This may vary due to their entry point into the programme. Apprentices can move to this apprenticeship at any stage in their career subject to having the minimum entry qualifications required by ACCA. Apprentices can also move to this apprenticeship having previously completed the Level 4 apprenticeship, allowing them to qualify for exemptions.

95%

Employers who are not eligible to pay the levy can access at least 95% of the maximum funding, equating to £19,950.
## ACCA’s apprenticeship programmes

### Flexible entry into the Professional Accountant Apprenticeship

**Level 7, England only**

There are many entry routes into the Professional Accountant Apprenticeship for employees and students of varying qualifications and experience which you can see mapped out here.

<td>Next Strategic Professional Level module</td>
<td>Apprenticeship funding would only cover training for exams still to be sat. Existing exam pass of Strategic Business Leader will be lost. Apprentice would need guidance to ensure they understand that they will still have to sit Strategic Business Leader as their final exam. Apprentice/employer would need to decide if worth switching at this point.</td>

### The final stage – registration with ACCA

Once you have entered into an agreement with a training provider and your apprentice has their own agreement with you in place, the apprentice needs to register online with ACCA via our website. You must support your apprentice through this registration process, paying the initial registration fees using the available online payment methods.

‘Apprenticeships simplify the recruitment and training process whilst allowing you to develop new talent’

Melanie Proffitt, Chief Financial Officer, Farncombe Estate Ltd
ACCA pathways and progression

Routes to ACCA chartered certified status and membership

The University of London in conjunction with ACCA also offers an MSc in Professional Accountancy for ACCA affiliates and members.

And in keeping with our commitment to lifelong learning, we’ve launched a range of further qualifications and a leading continuing professional development scheme to ensure ACCA accountants are fully equipped and knowledgeable to manage the financial and technological challenges in this fast-paced business world.

We have also partnered with Oxford Brookes University to offer any ACCA student a BSc (Hons) in Applied Accounting which is centred on the needs of employers for practical, professional accounting.

Accounting Technician
Finance professional that handles day-to-day financial matters in all types of business, undertaking a wide range of accountancy, financial and taxation tasks.

Apprentice
An individual who has taken up the apprenticeship position offered by their employer. The apprentice is the ‘student’—who is the end consumer of the product.

Apprentice Agreement
A formal agreement between an employer and an apprentice under which the apprentice undertakes to work for the employer.

Apprentice Assessment Organisation
Government approved organisation that delivers the end-point assessment.

Co-investment
Apprenticeship funding for non-levy paying employers where the government asks for a contribution to the cost of training and government will pay the rest up to a cap.

Levy
Government tax of 0.5% on wage bills of over £3 million annually used to fund apprenticeship training.

End-point assessment organisation
ACCA is an assessment organisation offering the end-point assessment of both the Accounting Technician and Professional Accountant Apprenticeship.

ACCA pathways and progression

Ensure you have 36 months relevant work experience and complete the ACCA Ethics and Professional Skills module.

Ensure you have 36 months relevant work experience and complete the ACCA Ethics and Professional Skills module.

Enter the ACCA Professional Accountant Apprenticeship (Level 7) at appropriate starting point.

On-programme assessment
This is the element of the programme that prepares the apprentice for their end-point assessment. There are two routes—assessment based and work-experience based. ACCA’s on-programme element will be assessment-based, using our existing exams as the basis.

End-point assessment
The end-point assessment consists of two elements and the apprentice must ‘pass’ both of these elements to be awarded with the apprenticeship.

ACCA is an assessment organisation offering the end-point assessment of both the Accounting Technician and Professional Accountant Apprenticeship.
Top myths about apprenticeship programmes

By the National Apprenticeship Service

‘As my levy funds expire after 24 months then I cannot use them to fund all of an apprenticeship that lasts longer than 24 months’

FACT:
The fact that your funds expire after 24 months in your apprenticeship service account doesn’t stop you meeting the full costs of an apprenticeship that lasts longer than 24 months. New funds enter your account every month for as long as you pay the levy.

• The costs of an apprenticeship are spread over the full length of the apprenticeship and are met in monthly instalments. The government will always use the oldest funds in an account first to minimise the potential for funds to expire.
• Only funds that are not spent will expire 24 months after they enter your account. If you do not have sufficient funds in your account to cover the monthly cost, the government will pay 90% of the balance due.
• You can use the National Apprenticeship Service’s ‘Estimate my apprenticeship funding’ tool to estimate how much your organisation will have available to spend on apprenticeships.

‘If you don’t spend all your levy, it gets spent by central Government on other things’

FACT:
Unspent levy funds get re-allocated to other apprentices within financial years.

The apprenticeship levy funds all apprentices currently in training – those already in an apprenticeship and those just starting, those working for employers who pay the apprenticeship levy, and those working for employers who do not.

‘20% off-the-job training is inflexible: it has to involve 1 day off a week, spent in college’

FACT:
Off-the-job training does not have to involve 1 day a week spent in college. It can be delivered in a way and place that suits you and the training provider, allowing your apprentice to learn the new knowledge, skills and behaviours required.

The style and timing of the learning is very varied – it could be a block of time in a residential setting or online learning to fit in with office hours.

‘Apprenticeships cannot be used for existing staff’

FACT:
Apprenticeships can be used to upskill and/or retrain employees of any age, including older workers or existing staff, as long as the apprenticeship is giving them new skills to enable them to achieve competence in their chosen occupation.

‘Apprenticeships are only entry level – they are for low skilled people’

FACT:
Apprenticeships are available from Level 2 (GCSE equivalent) right through to Levels 6 and 7 (equivalent to a Bachelor’s or Master’s degree). Some apprenticeships may also offer additional professional qualifications, such as ACCA. You can check the Institute for Apprenticeships website, which is constantly being updated as new standards come online every month.

‘Apprenticeships are only for young people (16-18)’

FACT:
Apprenticeships are available to people of all ages; anyone over the age of 16 can apply. There are different entry requirements depending on the industry, job role and apprenticeship level.
We’re the world’s most forward-thinking professional accountancy body.

We believe that accountancy is vital for economies to grow and prosper, which is why we work all over the world to build the profession and make society fairer and more transparent.

We have more than 219,000 fully qualified members and 527,000 students worldwide. They’re among the world’s best-qualified and most highly sought-after accountants - and they work in every sector you can imagine.

Organisations know and trust our designation. We’re out there every day, connecting with businesses large and small, governments, educational establishments and opinion formers. We’re on top of emerging trends, legislation and legal requirements, helping to shape them.

Because of all this, we’re able to create the innovative, strategic-thinking accountants our fast-changing world needs.

We offer the world-leading accountancy qualification
Employers all over the world seek out ACCA-qualified people. They know our qualification produces accountants with the technical and financial ability – and professional skills and behaviour – to work in any sector, anywhere in the world. Indeed, 92% of employers say ACCA people have the skills needed to drive their businesses forward.

Our qualification is benchmarked at Master’s level on educational frameworks worldwide. It’s used by national accountancy bodies around the world to train future finance professionals in the real-world skills they need to succeed. It’s rigorous, flexible and completely relevant to modern business.

We think ahead
The world doesn’t stand still – and neither do we. Throughout our 100+ year history, we’ve worked hard to innovate – from basing our qualification on IFRS to introducing tax and law variants. We are always looking for ways to adapt and enhance our offer to meet the changing needs of the accountancy profession.

Now, more than ever before, the role of the professional accountant is changing. So once again, we’ve updated our flagship qualification, to make sure it continues to produce the finance professionals your organisation needs to succeed in our fast-changing world.
