UNIVERSITY  
OF HULL

# Open doors to a world of opportunities

Study the ACCA  
Qualification alongside  
a Master's at the  
University of Hull

Think Ahead

# Study an international Master's with ACCA

**If you're looking for an exciting, rewarding career that could take you all over the world, studying accounting or finance abroad could be a great place to start.**

When you combine academic studies with the world-leading ACCA Qualification, you gain a potent blend of skills and experience that makes you instantly attractive to employers.

ACCA has partnered with the University of Hull to give you the opportunity to take ACCA exams while you study for your Master's. You'll work towards two qualifications at the same time. And by the time you graduate, you could be well on your way to becoming an ACCA member.

## **Why study for the ACCA Qualification alongside your Master's?**

You'll get all the experiences that come from studying in another country – a fresh perspective, the opportunity to learn or practise other languages and opportunities to build a diverse network. And of course, you can gain both a professional qualification and an academic one.

**When you take this fast route to ACCA membership, you can:**

### **Go anywhere, do anything**

Whatever your passion is, ACCA's flexible qualification will help you get there. And because it's recognised all over the world, you can work internationally.

### **Stand out to the best employers**

The ACCA Qualification gives you the technical, professional and ethical skills and experience employers everywhere are looking for.

### **Accelerate your career**

Studying for the ACCA Qualification and a Master's simultaneously means the moment you graduate, you'll be ready to start your career.

### **Be part of something big**

When you join ACCA, you become part of a global network of students and members who'll be there to support you throughout your career.

## Study for the MSc in Professional Accounting

You'll graduate with the skills and knowledge to lead using logic, analysis, and an understanding of the complexities of accounting within the business world.

### How does it fit into the ACCA journey?

If you've already passed – or have exemptions for – the first nine ACCA exams, you can take your ACCA Strategic Professional exams during the Master's. When you graduate, you'll just have to take the Ethics and Professional Skills module and fulfil the practical experience requirement and then you'll become a fully-qualified ACCA member.

### What will you study?

**The MSc in Professional Accounting modules prepare you for these ACCA exams:**

- Strategic Business Leader: An innovative case study exam based on real-world challenges future accountants will face
- Strategic Business Reporting: An enhanced corporate reporting exam that gives you the skills to explain transactions and reporting.
- Advanced Taxation
- Advanced Audit and Assurance
