**OPEN DOORS
TO A WORLD OF
OPPORTUNITIES**

STUDY THE ACCA QUALIFICATION ALONGSIDE
A MASTER'S AT THE **UNIVERSITY OF TORONTO SCARBOROUGH**

Study an international Master's with ACCA

If you're looking for an exciting, rewarding career that could take you all over the world, studying accounting or finance abroad could be a great place to start.

When you combine academic studies with the world-leading ACCA Qualification, you gain a potent blend of skills and experience that makes you instantly attractive to employers.

ACCA has partnered with University of Toronto Scarborough to give you the opportunity to take ACCA exams while you study for your Master's. You'll work towards two qualifications at the same time. And by the time you graduate, you could be well on your way to becoming an ACCA member.

Why study for the ACCA Qualification alongside your Master's?

You'll get all the experiences that come from studying in another country – a fresh perspective, the opportunity to learn or practise other languages and opportunities to build a diverse network. And of course, you can gain both a professional qualification and an academic one.

When you take this fast route to ACCA membership, you can:

Go anywhere, do anything

Whatever your passion is, ACCA's flexible qualification will help you get there. And because it's recognised all over the world, you can work internationally.

Stand out to the best employers

The ACCA Qualification gives you the technical, professional and ethical skills and experience employers everywhere are looking for.

Accelerate your career

Studying for the ACCA Qualification and a Master's simultaneously means the moment you graduate, you'll be ready to start your career.

Be part of something big

When you join ACCA, you become part of a global network of students and members who'll be there to support you throughout your career.

Study for the Master of Accounting and Finance (MAccFin)

The course enables students to ascend into positions of strategic decision-making and industry leadership. Students are primed for careers in both Accounting and Finance, including opportunities in consulting, project management, equity research, investment banking, corporate finance and accounting.

How does it fit into the ACCA journey?

If you've already passed – or have exemptions for – the first nine ACCA exams, you can take your ACCA Strategic Professional exams during your Master's and also finish your Master's in a shorter time and when you graduate, you'll just have to take the Ethics and Professional Skills module and fulfil the practical experience requirement and then you'll become a fully-qualified ACCA member.

What will you study?

The Master of Accounting and Finance modules prepare you for these ACCA exams:

- Strategic Business Leader: An innovative case study exam based on real-world challenges future accountants will face
- Strategic Business Reporting: An enhanced corporate reporting exam that gives you the skills to explain transactions and reporting.
- Advanced Financial Management
- Advanced Performance Management
- Advanced Audit and Assurance
- Corporate and Business Law
- Financial Reporting
