

Ethics and Professional Skills Module (EPSM)

Completed studying – transcript

This is a transcript of a video that can be accessed from accaglobal.com/epsm

The learning was so varied, interactive and engaging. Almost like a virtual reality business tool. After you've completed the first unit, you really understand how useful this module is.

When you realise it's only 15 hours, and you can do it whenever and wherever you like, it doesn't feel like learning. It feels more like a way to improve my commercial understanding on my own terms.

The setup and the user experience is unlike anything I've used before.

It's engaging, innovative and truly interactive.

The peer assessment is a really innovative way to learn. It helped me improve my presentation skills, which can only benefit me in my career.

Your work is reviewed by others taking EPSM. Why do you assess this? It's a clever way to get such valuable feedback.

I enjoyed the learning techniques. It was a clever way of putting myself in real world situations, like being the head of accounting at another organisation.

It's helped me to understand things like leadership, communication, awareness, which is perfect for the real world.

I think it's a great way to enhance overall professionalism. As a future ACCA member and as an employee.

As a skills enhancer, it improves your professionalism and makes you feel more confident in the workplace.

I thought, 'no!'. I mean, my life is so busy. But it's nothing like that. It's really flexible, and it just allows me to dip into my knowledge.

It's a simple and effective learning process.

My goal is ACCA membership and doing this will help me achieve my goals.

Some things are just necessary in your career journey and this is genuinely one of them.
