Aim of the Foundation-Level Qualifications

ACCA Foundation-level qualifications promote open access to a range of relevant and practical qualifications in accountancy and business. They provide the vital knowledge and skills needed by anyone working, or aspiring to work, in accountancy or finance from the age of 16 onwards.

Since we were founded, we've held a set of core values which still drive us today, giving ACCA its distinctive character and defining our approach to the global profession:

- opportunity
- diversity
- innovation
- accountability
- integrity.

In keeping with these values, the philosophy behind our open access policy is:

- to encourage a diverse range of students to register for our qualifications, and
- to provide wide access to Foundation-level accountancy qualifications to a larger pool of candidates of all ages and backgrounds.

The accountancy profession is constantly evolving to meet the needs and demands of how business operates. And this is most apparent at the accounting-support level. That's why our Foundation-level qualifications have been developed with employers firmly in mind. They provide employers with access to competent and ethical technicians, trained to consistent standards, with built-in flexibility to allow skills to be tailored to meet different sector needs and environments.

We know they're fit for purpose because we developed them following in-depth employer consultations which identified employers' needs. We regularly review the syllabus and update it to make sure the content remains highly relevant and upholds industry standards for this sector.

Modern accounting technicians need a rigorous and flexible qualification to help them make a real contribution to business performance in an ever-changing business landscape. Our Foundation-level qualifications meet employers' needs by allowing their students to choose from our flexible range of qualifications which will help develop the technical knowledge and practical skills needed for accounting technician roles. Because these qualifications are modular and progressive students can join, and exit, at levels that can be matched to their job roles and capabilities. They also provide a route to the ACCA Qualification.

ACCA is recognised as an awarding organisation and our Foundation-Level qualifications are listed on the Register of Regulated Qualifications and the Qualifications in Wales database. The table below provides details of the ACCA qualifications recognised as they appear on each register.

TOTAL QUALIFICATION TIME AND CREDIT ASSIGNED

Total Qualification Time (TQT) is a reasonable estimate of the total amount of time we expect students to need so that they can achieve and demonstrate the level of attainment necessary for the qualification to be awarded. TQT is only a guide for students and ACCA recognises that some students will require more or less support when undertaking a qualification.

It's made up of the following two elements:

- a the number of hours assigned to a qualification for guided learning
- b an estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training. This includes assessment, which takes place as directed by – but, unlike guided learning, not under the immediate guidance of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

We've calculated the TQT for the ACCA Certificate in Financial Management (RQF Level 4) as follows:

EXAMINATION	LEVEL	GUIDED LEARNING	NON-GUIDED LEARNING	TQT	CREDITS
FFM, Foundations in Financial Management	4	92	148	240	24
