This is a blank page. Question 1 begins on page 7.

Section A – BOTH questions are compulsory and MUST be attempted

1 You should assume that today's date is 18 November 2020

Your manager has had a meeting with Nicos, a client of your firm. Extracts from a memorandum prepared by your manager together with information provided by Nicos are set out below:

Extract from the memorandum prepared by your manager - dated 16 November 2020

Nicos owns 100% of the share capital of ABC Ltd and is the sole director of the company. Nicos is tax resident and domiciled in Cyprus and will continue to be so in the foreseeable future. ABC Ltd imports and sells specialised water pumps in Cyprus. Nicos has provided the attached projected statement of profit or loss for the year ending 31 December 2020 prepared by the accounts department of ABC Ltd. Salaries include Nico's salary of \leq 40,000 per year.

The company has operated from its own warehouse since 2017. The warehouse was built by an independent construction company on land purchased by ABC Ltd in 2015. A schedule of non-current asset purchases is also attached.

Last week, ABC Ltd sold an overseas flat in Farland, which was an investment made for long term capital gain using surplus cash of the company, many years ago. The tax paid on the disposal was computed and paid by the Farland based accountants of ABC Ltd who were employed to handle the company's tax obligations relating to this property. The Farland accountants have informed ABC Ltd that there is no double tax treaty between Farland and Cyprus.

Up to 31 October 2020 the flat was earning rental income, after a deduction of 10% withholding tax in Farland. The flat was located in the historic part of Farland and was constructed in 1915. There were no expenses associated with the rental in this period.

ABC Ltd owns 35% of the shares in Zeta Ltd; a Cyprus resident company which provides plumbing services in Cyprus.

In July 2020, ABC Ltd paid \in 5,000 of provisional tax. However, Nicos is worried that the projected tax liability of ABC Ltd for the current year will mean that this may have been too low. Nicos wishes to keep the second installment of provisional tax as low as possible to preserve cash flow.

No Special Defence Contribution (SDC) has been paid. Nicos understands that there will be a significant SDC liability in future years based on the results for 2020 because of the deemed dividend provisions of the legislation, but he would like to know if there is anything he can do to minimise and/or delay any liability as much as possible without changing the corporate structure.

Г

Required:

Prepare a memorandum for your tax manager in which you compute all of the taxes payable by ABC Ltd for the year ending 31 December 2020, including the special defence contribution on deemed dividends relating to the profit for the year.

Present your results in a table showing the amount of each tax payment due and the deadline for each payment. Include in your memorandum, a statement of where penalties and/or interest may apply, but do not compute the amounts.

You should explain your calculations where necessary, and provide any other relevant information, stating any assumptions made.

The following marks are available:

(i)	Corporation tax.	(15 marks)
(ii)	Special defence contribution (SDC).	(12 marks)
(iii)	Other taxes.	(4 marks)

Professional marks will be awarded for the format and presentation of the memorandum and the clarity and effectiveness with which the information is communicated. (4 marks)

2 The following are notes from a meeting of the tax partner of your firm with Andreas, a young entrepreneur, which were forwarded to you, requesting your assistance:

Andreas is 28 years old and has always been resident in Cyprus. Having worked in cafeterias in Nicosia since he was 21, he has decided to start his own cafeteria. For this purpose, he registered a new company Kafe Ltd. He holds all the share capital of Kafe Ltd and he is the only director and secretary.

Kafe Ltd has taken out a loan of \in 50,000 from a local bank to finance the business start-up.

As location is everything in the cafeteria business, Andreas has identified a suitable shop in the centre of Nicosia currently operating as a butcher shop. The butcher shop is currently occupied by John, a sole trader, who is registered for VAT. John has been renting the shop for over 20 years and has an agreement to occupy it for a further 5 years. Andreas has agreed that Kafe Ltd will pay \in 20,000 to John to ensure that he vacates the premises so that Kafe Ltd can rent it.

The shop is owned by two sisters, Anna and Maria, who inherited the property some time ago from their father. Anna is resident in Cyprus, but Maria is currently resident in London, England, as she is a full-time university student there. Maria only visits Cyprus for a few weeks a year, in August, for holidays and will continue to do so in the foreseeable future. Anna and Maria charge rent for the shop of $\in 1,500$ plus VAT per month. This is payable in advance every month, and is split equally between Anna and Maria. Andreas will set up a bank standing order for the separate payments to each sister.

Kafe Ltd plans to purchase 50% of its coffee beans from Colombia (non-EU) and 50% from Italy (EU). The purchase cost from each country being about the same. Each shipment will be of a value of \in 3,000. The current VAT rate applicable on coffee beans is 5%. The first shipment will be received before the cafeteria opens for business.

Most of Kafe Ltd sales will be taxable for VAT purposes at 9% but there will be supplies at 5% and 19%. Andreas is not sure how much the business will turnover each month but he has heard that he can voluntarily register for VAT and he would like our advice on this matter.

Required:

- (a) In respect of the of the €20,000 payment, explain the various tax implications for both John and Kafe Ltd. (6 marks)
- (b) Explain Kafe Ltd's tax obligations when making the rental payments to Anna and Maria. Compute, to the nearest cent, the amount of standing order payments that Kafe Ltd will need to set up to Anna and Maria.

(8 marks)

(c) State when Kafe Ltd will be required to compulsorily register for VAT, and analyse the advantages and disadvantages of not voluntarily registering for VAT. Make specific reference to the €20,000 payment to John, the payment of rent and the purchase of coffee beans. (11 marks)

(25 marks)

Section B – BOTH questions are compulsory and MUST be attempted

3 Maro, aged 40, lived in Cyprus with her Cypriot parents until ten years ago when she moved overseas to Newland. She is employed by a Newland fashion design company and is a successful businesswoman with shares in this Newland company. As Cyprus has double tax treaties with many countries, Maro wants to set up a Cyprus company ('Maro Designs') through which she wishes to sell her own designs internationally. She is planning to return to Cyprus in the next two to three years and she was advised to appoint a Cyprus resident 'nominee' director of Maro Designs until then. She will be managing all operations of the Maro Designs company, including the bank account, which will be maintained with a Cyprus local bank. The Maro Designs company will rent a small office in Cyprus and purchase some office furniture and equipment.

Maro wishes to set up a trust for her sister, Eleni. Eleni is 35 years old and has always been resident in Cyprus. She works as a pharmacist and earns a salary of \in 65,000 a year. The trust will earn interest, dividends and rental income from investments in Cyprus and abroad.

On her return to Cyprus, in two to three years, Maro will continue to earn a salary and dividends from the company in Newland. No tax will be payable in Newland on this income. Maro will have to occasionally visit Newland to attend board meetings and conferences. In future she plans to dispose of the shares in the Newland company.

Required:

- (a) Advise whether the Maro Designs company will be considered Cyprus tax resident with a Cyprus resident 'nominee' director. Assess what difference it would make if Maro is appointed sole director of the company from the beginning and continues to be so when she returns to Cyprus. (7 marks)
- (b) Describe what a 'trust' is and how any income received by the trust, which Maro wishes to set up for Eleni, will be taxed in Cyprus. (7 marks)
- (c) Explain how Maro will be taxed in Cyprus on her permanent return, on the dividends and salary she will continue to receive from the Newland company and from any future profit on disposal of her shares in that Newland company. (6 marks)

4 Assume that today's date is 9 November 2020.

Anna, a client of your firm, works as a secretary for a law firm with a salary of €28,000 per year. She is 52 years old and is tax resident and domiciled in Cyprus. She has sent the following email:

Dear Sirs,

I have invested part of my savings in a shop in Larnaca, Cyprus, in the hope of getting a better return than the current interest on my savings, but the whole matter is turning into a nightmare.

I purchased the second-hand shop in January 2010. Since then the shop has been rented to one tenant for \in 1,800 per month but unfortunately they vacated the shop in February this year. The shop has remained empty since then. Interest from potential new tenants has been low as the shop needs major repairs.

I am thinking about my options as follows:

Option 1

Selling the shop before the end of the year for its current market value. I have, for this purpose, commissioned an independent valuation report which I attach. I have never sold immovable property in Cyprus before.

Option 2

Another option I have is to rent it to a new third-party tenant who has offered to make the necessary repairs to the shop (estimated cost of repairs \in 18,000) and then rent the shop to him for five years, for \in 1,500 per month. He will use the shop as a kiosk. I do not expect to have any benefit from the repairs as I anticipate that the shop after five years will be in the same state as it is today.

On top of my other problems I have received an assessment for 2017 issued by the tax department last month showing income tax payable of \in 560. I cannot understand why – I have always filed my tax returns on time and paid all taxes due.

Extract from the valuation report on the shop in Larnaca

Property description	Used shop in Larnaca currently empty.
	The shop was built in 2000. In accordance with the developer's records, construction cost was \in 155,000 of which \in 55,000 was for the cost of the land including land transfer fees. The shop was sold new in 2000 for \notin 200,000.
	Anna purchased the shop in January 2010 for \in 230,000. In addition, Anna paid land transfer fees of \in 12,400 at the time of purchase.
Estimated market value today	€270,000
Estimated rental value	€1,800 per month

Required:

- (a) Compute the capital gains tax payable by Anna if she takes Option 1, explaining your calculations where necessary. For purposes of your calculations assume that the retail price index applicable on the date of disposal of will be 224.0 (7 marks)
- (b) If Anna takes Option 2, explain the Cyprus income tax implications and the VAT implications and options available to her. (10 marks)
- (c) Explain why the tax department may have issued an assessment, the time limits for so doing, and how Anna may challenge this assessment. (3 marks)
